

Configuring Cross-Tenant Access for WeTransact in Microsoft Entra

docs.wetransact.io/configuring-cross-tenant-access-for-wetransact-in-microsoft-entra

Click on Expand External Identities section

Click on Cross-tenant access settings

Click on Add organization

The screenshot shows the Microsoft Entra admin center interface. The left sidebar contains navigation links for Home, What's new, Diagnose & solve problems, Favorites, Identity, Users, Groups, Devices, Applications, Rules to admin, Protection, Identity Governance, External Identities, and Learn & support. The main content area is titled 'External Identities | Cross-tenant access settings'. It features a search bar, a 'Get feedback?' link, and tabs for 'Organizational settings', 'Default settings', and 'Microsoft cloud settings'. The 'Organizational settings' tab is active, showing a '+ Add organization' button, a 'Refresh' button, and a 'Columns' button. Below this, there is a search bar labeled 'Search by domain name or tenant ID' and a section titled '2 organizations found'. A table lists the organizations with columns for Name, Inbound access, Outbound access, and Tenant restrictions. The table shows two organizations: 'Squidra' and 'In Cloud', both with 'Inherited from default' values for Inbound and Outbound access, and 'Inherited from default' for Tenant restrictions.

Type "wetransact.io"

The screenshot shows the Microsoft Entra admin center interface with the 'Add organization' dialog box open. The dialog box is titled 'Add organization' and contains the text 'Add an external Microsoft Entra tenant by typing one of its domain names or tenant ID if from another Microsoft cloud.' Below this text is a search input field containing the text 'wetransact.io'. At the bottom of the dialog box are 'Add' and 'Cancel' buttons. The background shows the same 'External Identities | Cross-tenant access settings' page as the previous screenshot, but it is partially obscured by the dialog box.

Click on Add

The screenshot shows the Microsoft Entra admin center interface. The left sidebar contains navigation links for Home, What's new, Diagnose & solve problems, Favorites, Identity, Overview, Users, Groups, Devices, Applications, Rules to admin, Protection, Identity Governance, External Identities, Overview, All identity providers, User flows, Custom authentication extensions, Cross-tenant access settings, External collaboration settings, Cross-tenant synchronization, Show more, Protection, Identity Governance, and Learn & support. The main content area is titled 'External Identities | Cross-tenant access settings' and includes tabs for Overview, Cross-tenant access settings, Organizational settings, Default settings, and Microsoft cloud settings. The 'Organizational settings' tab is active, showing instructions on how to use cross-tenant access settings to manage collaboration with external Microsoft Entra tenants. A search bar is present, and a table lists organizations found. On the right, the 'Add organization' dialog box is open, prompting the user to add an external Microsoft Entra tenant by typing a domain name or tenant ID. The dialog shows the name 'WeTransact' and a tenant ID. At the bottom of the dialog are 'Add' and 'Discard' buttons.
