Video Masterclasses

Our video masterclasses are designed to give you a clear, structured path to understanding and winning with the Microsoft Marketplace. Each short video focuses on a specific topic—from how the marketplace works, to optimizing your listing, to building reseller offers. Whether you're new to Marketplace or already selling, these sessions will help you navigate with confidence and apply best practices right away. Start from the beginning or jump straight to the topic that matters most to you.

How to leverage the WeTransact Collaborative Customer Tab for enhanced sales strategies?

This guide introduces the **WeTransact Collaborative Target Customer Tab**, a shared workspace where all WeTransact users can view, enrich, and act on target customer insights. It explains how to leverage community-driven intelligence, track buyer intent, and monitor trending accounts to refine your go-to-market strategy. You'll also learn how to add new customers and filter by key criteria to build a living, evolving sales playbook.
