

How to view marketplace listing status?

docs.wetransact.io/how-to-view-marketplace-listing-status

Viewing your Marketplace listing status lets you check whether your offer is live, in draft, or under review, ensuring you know its current availability and visibility to customers.

It will be in two steps. First, **go to Partner Center**

● Click on Marketplace offers

● Here you can review current status.

If we requested you to provide the information, please, take a screenshot of current solutions listed.

Tip ✨ Make sure all columns and everything shows properly 👍 Depending of the browser and your screen you might need to scroll-right or zoom out your browser settings so all information fits on the screenshot.
