

I have added WeTransact, but support/bot can't log in.

docs.wetransact.io/i-have-added-wetransact-but-supportbot-cant-log-in

Error Message: "Access is blocked by the organization"

It appears there are policies or restrictions in place that are preventing the required action from being completed. These may exist in one of three areas outlined below. Let us guide you through identifying and resolving the issue. Please check below:

First Check - Is the User activated ? Starting from portal.azure.com

Browse to the Users tab. If it doesn't show up on homepage, you alternatively type "Users" on the search bar and navigate there.

The screenshot shows the Microsoft Azure portal interface. The top navigation bar includes the Microsoft Azure logo, a search bar, and user information for johan.aussenac@wetransact.io. The main content area is divided into two sections: Azure services and Resources.

Azure services

- Create a resource
- Marketplace
- SaaS
- Tenant properties
- More services
- Users** (selected, with a 'View' link)
- Users
- Cost Management ...

Resources

Recent Favorite

Name	Type	Last Viewed
Sigilium_WeTransact	SaaS	2 days ago
wetransact.io	DNS zone	2 days ago
saasac-admin	App Service	3 days ago
saasaccelerator	Resource group	3 days ago
saasac-portal	App Service	3 days ago
Microsoft Azure Sponsorship	Subscription	3 days ago
johantesttackle	SaaS	a month ago
datakutest	SaaS	a month ago
visionairy	Resource group	a month ago
wetx-visionairyfunctions	Function App	a month ago
teamsapp	Resource group	a month ago

● Check on the "bot@wetransact.io" and repeat the operation for "support@wetransact.io".

The screenshot shows the Microsoft Azure portal interface for managing users in a Microsoft Entra ID tenant named 'WeTransact'. The 'Users' page is active, displaying a list of 78 users. The user 'bot@wetransact.io' is selected, and the 'Guest' user type is highlighted with a blue circle. The interface includes a search bar, navigation links, and a table of user details.

Display name	User principal name	User type	On-premises sync	Identities
bot@wetransact.io	admin_wtrpa.org#EXT#@...	Guest	No	wetransactdo

🟡 On the overview tab - please make sure the "Account Status" is showing "Enabled" if not click on Edit and enable it.

The screenshot shows the Microsoft Azure portal interface. At the top, the header includes the Microsoft Azure logo, a search bar, and the user's profile (johan.aussenac@wetransact.io). The main content area is titled 'admin@wtrpa.org' and shows the 'Overview' tab selected in the left-hand navigation menu. The overview card displays the following details:

- Created date time: Aug 9, 2023, 4:19 PM
- User type: Guest
- Identities: [wetransactdotio.onmicrosoft.com](#)
- Group memberships: 1
- Applications: 1
- Assigned roles: 0
- Assigned licenses: 0

Below the overview card, the 'My Feed' section displays three items:

- Account status**: Shows a green checkmark and the text 'Enabled'. An 'Edit' link is visible below the status.
- B2B invitation**: Shows the invitation state as 'PendingAcceptance' and a 'Resend invitation' link.
- B2B collaboration**: Shows the current user is external.

Second Check - External Collaboration Settings - navigate to Microsoft Entra Id

Click on External Identities

● Click on External collaboration settings

Microsoft Azure Search resources, services, and docs (G+/)

Home > WeTransact | External Identities > External Identities

External Identities | External collaboration settings

WeTransact

Search Save Discard

Click on Conditional Access

Microsoft Azure | Search resources, services, and docs (G+/)

Home > WeTransact | Security > Security | Getting started

Search, Got feedback?

Getting started

- Diagnose and solve problems
- Protect
 - Conditional Access
 - Identity Protection
 - Security Center
 - Verified ID
- Manage
- Report
- Troubleshooting + Support

Documentation

Microsoft Entra ID offers a range of security features to protect your organization. To learn more, here are some features to start with.

- Microsoft Entra Conditional Access
- Microsoft Entra ID Protection
- Azure Security Center
- Identity Secure Score
- Named locations
- Authentication methods
- Multifactor authentication

Security guidance

For a strong security posture, we recommend the following:

- 5 steps to secure your identity infrastructure
- Microsoft Entra Password Guidance
- Microsoft Entra ID Data Security Whitepaper
- How Password Hash Sync (PHS) works

Deployment guides

To deploy the above features in your organization, check out [Microsoft Entra ID deployment plans](#).
