

Step 1 – Create Your Microsoft Work Account

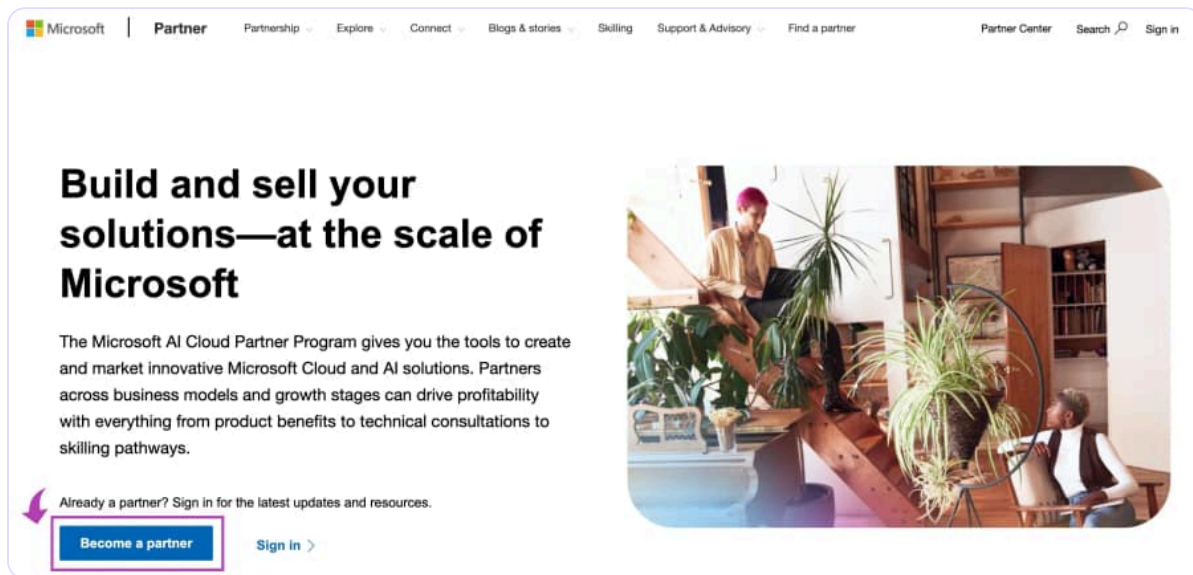

docs.wetransact.io/step-1-create-your-microsoft-work-account

Microsoft Work Account:

If you don't have an existing Microsoft 365 or if your domain is hosted on Google. You need a Microsoft work account to register for Partner Center.

● Step 1: Start the Process

Go to Partner Center and click 'Become a partner.'

The screenshot shows the Microsoft Partner Center homepage. The header includes the Microsoft logo, a 'Partner' badge, and navigation links: Partnership, Explore, Connect, Blogs & stories, Skilling, Support & Advisory, and Find a partner. On the right, there are links for Partner Center, Search, and Sign in. The main content area features a large heading 'Build and sell your solutions—at the scale of Microsoft' and a paragraph about the Microsoft AI Cloud Partner Program. Below this, there is a call to action 'Become a partner' highlighted with a red box, and a 'Sign in' link. To the right of the text is a photograph of two people in a modern office setting.

Select **Build** and go Next

If the payment fails:

Sometimes Microsoft's system fails during payment. If this happens:

Don't panic. Don't call Microsoft support.

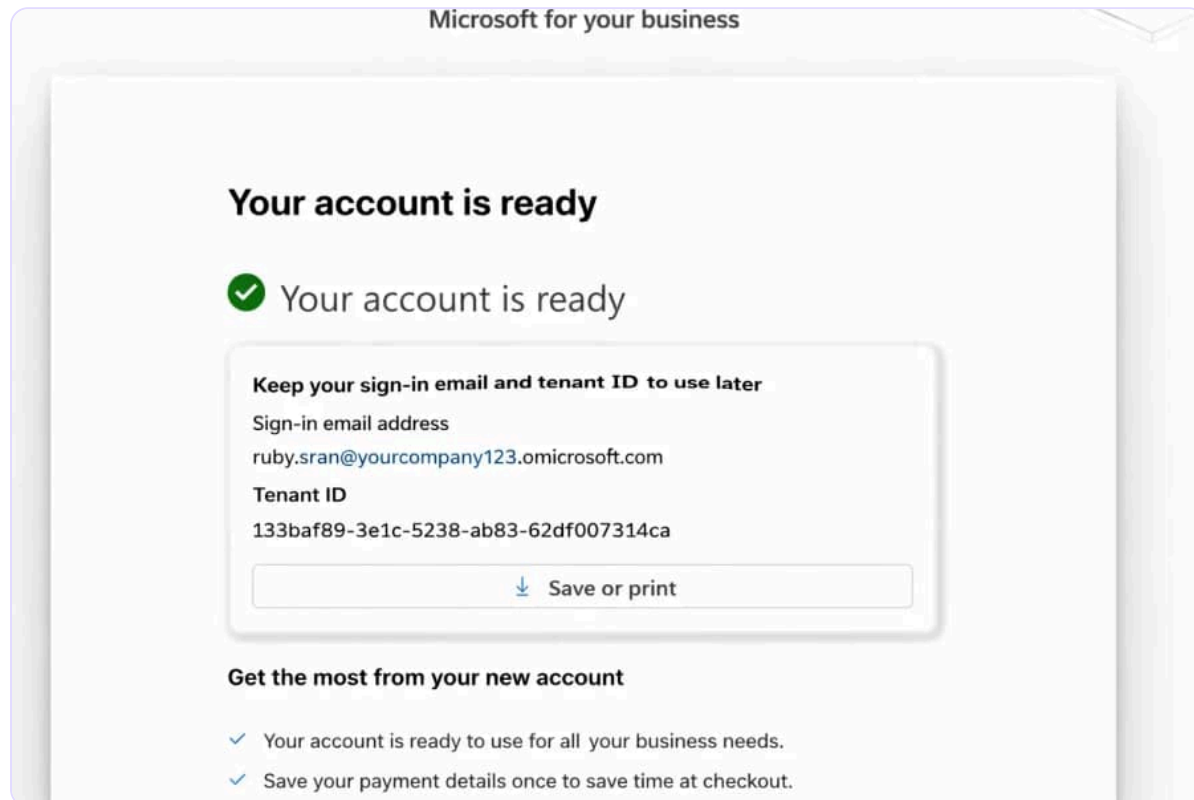

Instead:

1. Close the current process

2. Start again using a different email address from your company

Example: if john@yourcompany.com failed, try sarah@yourcompany.com

3. Microsoft will automatically create a new work account, possibly with numbers added (e.g., yourcompany123.onmicrosoft.com)

This is normal and works perfectly fine.

● Step 4: Set Up Multi-Factor Authentication (MFA)

■■ This step is mandatory.

Your work account is not complete until MFA is configured.

Keep your account secure

Your organization requires you to set up the following methods of proving who you are.

Microsoft Authenticator

Start by getting the app

On your phone, install the Microsoft Authenticator app. [Download now](#)

After you install the Microsoft Authenticator app on your device, choose "Next".
