

Global Admin – Partner Center setup

You own the Microsoft side of onboarding. Microsoft requires the Global Admin role to complete this setup – no one else in the company can do it for you. Budget about 45 minutes of hands-on work.

Your tasks (call 1, with your CSM)

- ☐ **Domain hosted on Google?** Create a Microsoft work account first [guide →](#)
- ☐ **Enrol in the commercial marketplace** – Partner Center account + E-SIGN agreement
- ☐ **Validate the company's legal information**
- ☐ **Give WeTransact access to Partner Center** [guide →](#)
- ☐ **Complete the tax & payout profile** – 48 h Microsoft validation [guide →](#)

Self-service onboarding – start today

Good news: your WeTransact portal is already live 🎉 We have provided you access to it. You can start right away with our self-service onboarding:

Your portal:

1. Open your portal (above) and log in with Microsoft SSO by clicking the Microsoft icon.
2. After signing in, select **Set up Partner Center** and follow the steps.

The flow walks you through the setup at your own pace – complete as much as you can, and anything left pending we'll finish together on our calls. The more you complete upfront, the faster your listing goes live.

1

Your call: Partner Center setup (30–45 min) with your WeTransact CSM – the tasks above are done together on this call. After submission, Microsoft validation takes up to 48 hours; we monitor it and chase anything stuck.

WHAT YOUR CSM DOES

Runs the call and walks you through every click – enrolment, legal validation, access. Submits the tax and payout profile with you, then monitors Microsoft's validation and chases anything stuck. Once access is granted, we configure the listing behind the scenes.
