Glossary of Microsoft Marketplace terms

docs.wetransact.io/glossary-of-microsoft-marketplace-terms

Microsoft uses a lot of acronyms. This glossary explains the ones you'll meet most often in Partner Center, in the WeTransact portal and in this help center.

🟣 Marketplace and offers

Term	Meaning
Microsoft Marketplace	Microsoft's online store for business software. Replaces the former AppSource and Azure Marketplace storefronts.
Partner Center	Microsoft's portal where you manage your company profile, offers, payouts and program enrolments.
Transactable offer	An offer customers can buy directly through the marketplace, billed by Microsoft.
SaaS offer	A Software as a Service offer: your software runs in your own environment and customers subscribe to it.
Managed application	An Azure offer deployed into the customer's Azure subscription and managed by you.
Private offer	A custom price and terms for a specific customer, sent through the marketplace.
Private plan	A plan visible only to selected customers.
CSP private offer	A private offer to a Cloud Solution Provider (CSP) partner, who resells your product to their customers.
MPPO	Multiparty private offer: a three-way offer between you, a channel partner and the customer.
REO	Resale enabled offer: a standing authorization that lets a channel partner create private offers for your product on their own.
Store service fee	The fee Microsoft takes on transactable marketplace sales before paying you.
Payout	The money Microsoft pays you after collecting from the customer, paid monthly.

🟣 Customers and contracts

Term	Meaning
MACC	Microsoft Azure Consumption Commitment: a customer's agreement to spend a set amount with Microsoft over several years. Eligible marketplace purchases count toward it.
Azure benefit eligible	An offer whose purchases count toward a customer's MACC.
EA	Enterprise Agreement: an older Microsoft licensing agreement for large organizations.
MCA	Microsoft Customer Agreement: Microsoft's current direct customer agreement, gradually replacing the EA.
CSP	Cloud Solution Provider: Microsoft's program for partners that resell Microsoft cloud to customers.
TPID	Top Parent ID: Microsoft's identifier for a customer's top parent organization. Not the same as a tenant ID.
Microsoft Entra tenant ID	The identifier of an organization's Microsoft cloud tenant. Formerly Azure AD tenant ID.

🟣 Programs and co-sell

Term	Meaning
MAICPP	Microsoft AI Cloud Partner Program: Microsoft's partner program. Replaced the Microsoft Partner Network (MPN).
Partner ID	Your company's identifier in the partner program. Formerly MPN ID.
Co-sell	Selling together with Microsoft's sales teams on shared customer opportunities.
IP co-sell eligible	A status that lets Microsoft sellers get credit for selling your product. Microsoft sets the requirements, including a minimum marketplace revenue and a technical validation.
Deal registration	Sharing a customer opportunity with Microsoft in Partner Center (also called a referral).
CSD	Certified Software Designation: Microsoft's highest designation for software companies. Replaced "Top-Tier Partner".
MBS	Marketplace Billed Sales: the total billed to customers through the marketplace. Used in many program requirements.
ACR	Azure Consumed Revenue: revenue from customers' Azure consumption.
Frontier Accelerate for Marketplace	Microsoft's FY27 offering that brings together ISV Success, Marketplace Rewards, IP co-sell and CSD.
Marketplace Rewards	Microsoft's go-to-market benefits for marketplace publishers, now part of Frontier Accelerate for Marketplace.
ISV / SDC	Independent software vendor. Microsoft now also says software development company (SDC).

🟣 Microsoft roles

Term	Meaning
AE	Account Executive: the Microsoft seller who owns a customer account.
PDM	Partner Development Manager: the Microsoft contact who manages a partner relationship.
CSAM	Customer Success Account Manager: the Microsoft contact focused on a customer's adoption after the sale.

🟣 Microsoft calendar

Term	Meaning
FY	Fiscal year. Microsoft's year runs 1 July to 30 June.
TTM	Trailing twelve months: the rolling 12-month window Microsoft uses for most revenue thresholds.
