

How to provide (or update) Partner Center user rights?

docs.wetransact.io/how-to-provide-or-update-partner-center-user-rights

Providing or updating Partner Center user rights ensures team members have the correct roles and permissions to perform their responsibilities, enabling smooth management of offers, customers, and program enrollments.

Here you'll know how to provide user access rights to your colleagues. You'll need to be of course Global Admin user rights.

If you don't know, [click here to know who is the Global Admin](#), please follow the steps below:

● [Go to partner.microsoft.com](https://partner.microsoft.com)

● Click on Settings

Click on Account settings

The screenshot shows the Microsoft Partner Center Home page. The top navigation bar includes the Microsoft Partner Center logo, a search bar, and icons for notifications, user profile, help, settings, and a language icon. The main content area is divided into two sections: Workspaces and Quick starts. The Workspaces section features three cards: Benefits (with a heart icon), Insights (with a lightbulb icon), and Membership (with a person icon). The Quick starts section features six cards with book icons and titles: Benefits Overview, Learn about membership requirements, About Insights, Getting around Partner Center, Indirect reseller enrollment, and Get workspace access from your admins. On the right side, a dropdown menu is open, showing links for Account settings, My preferences, Dark mode (with a toggle switch), English (United States), and About, followed by a plus sign icon.

Roles applicable to developer programs [Learn more](#)

Select one or more roles to grant the appropriate permissions.

- ☒ **Manager(Windows)**
Has complete access to account features except tax and payout settings. Can manage users, roles, and tenants in Partner Center.
- ☒ **Developer**
Can upload packages and submit apps and add-ons, and can view the Usage report for telemetry details. Can't access financial info or account settings.
- ☒ **Business Contributor**
Can access financial info, and can set pricing details. Can't create or submit new apps and add-ons.
- ☒ **Finance Contributor**
Can view payout reports. Can't make changes to apps or settings.
- ☒ **Marketer**
Can respond to customer reviews and view non-financial reports. Can't make changes to apps or settings.

Update Cancel [Password reset](#)

The user rights update should be ready. Ask the user you provided the rights, to log out and log in again so the new user rights are reflected successfully.
