

How to Purchase a WeTransact Solution?

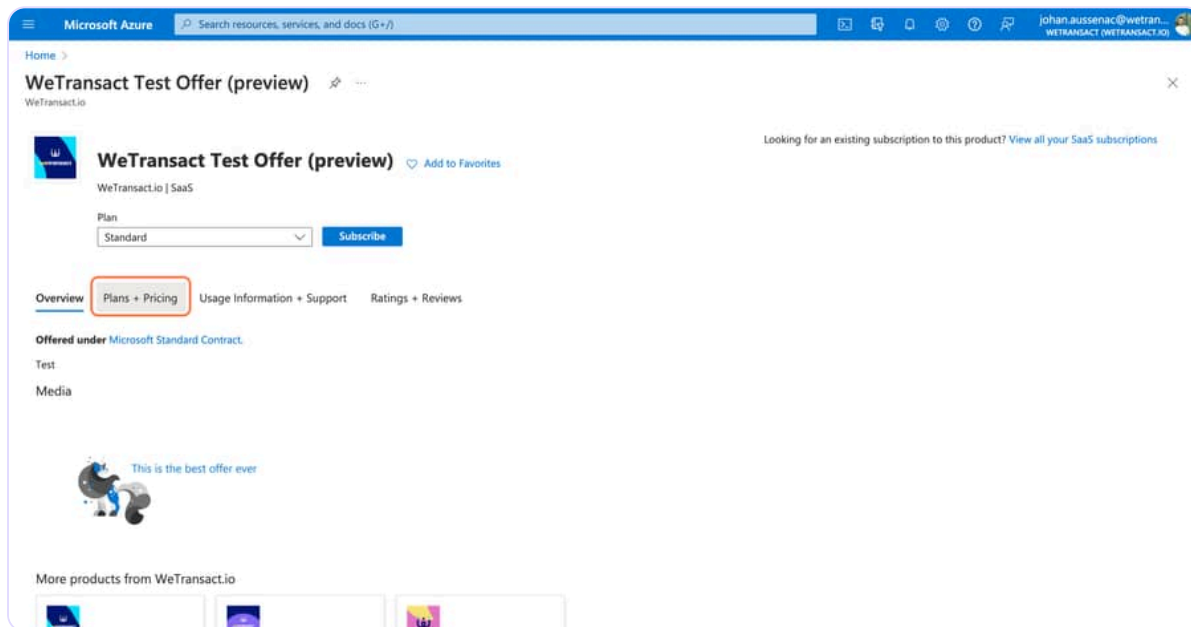

docs.wetransact.io/how-to-purchase-a-wetransact-solution

Purchasing the WeTransact solution involves selecting the desired subscription plan from the Marketplace listing, reviewing the pricing and terms, and completing the checkout through your Azure subscription, after which the solution will be provisioned in your account. Please follow the steps below:

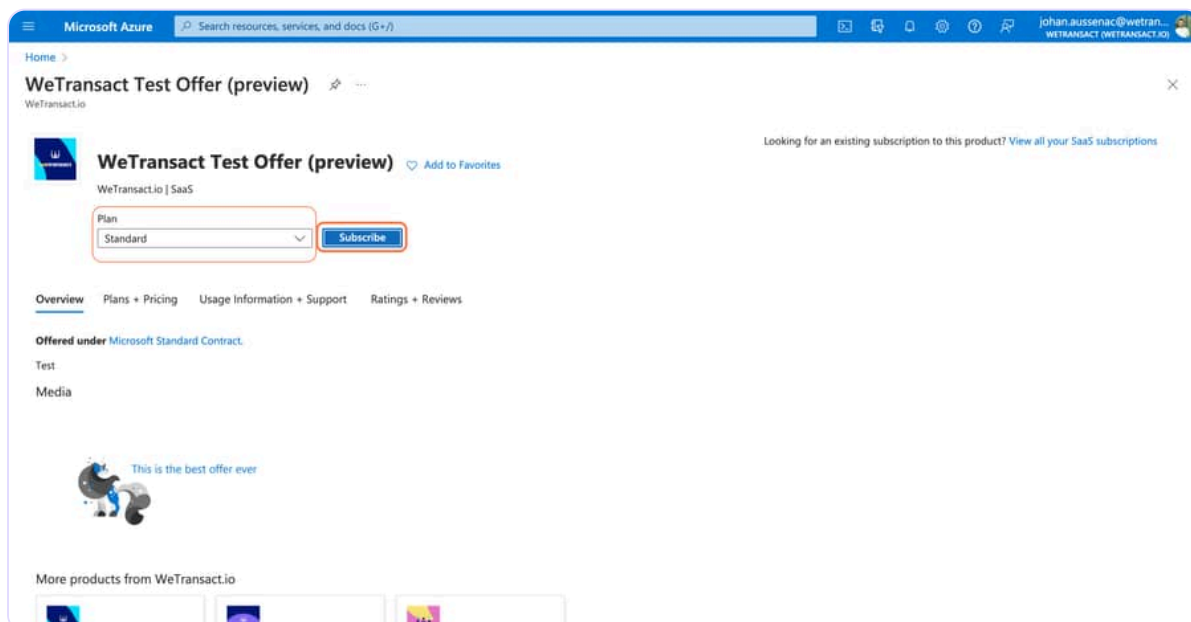

● Choose the WeTransact plan you want to purchase

● On the offer, click the "Plans + Pricing" tab

Look at the different plans WeTransact offers and identify the one that is relevant to you.

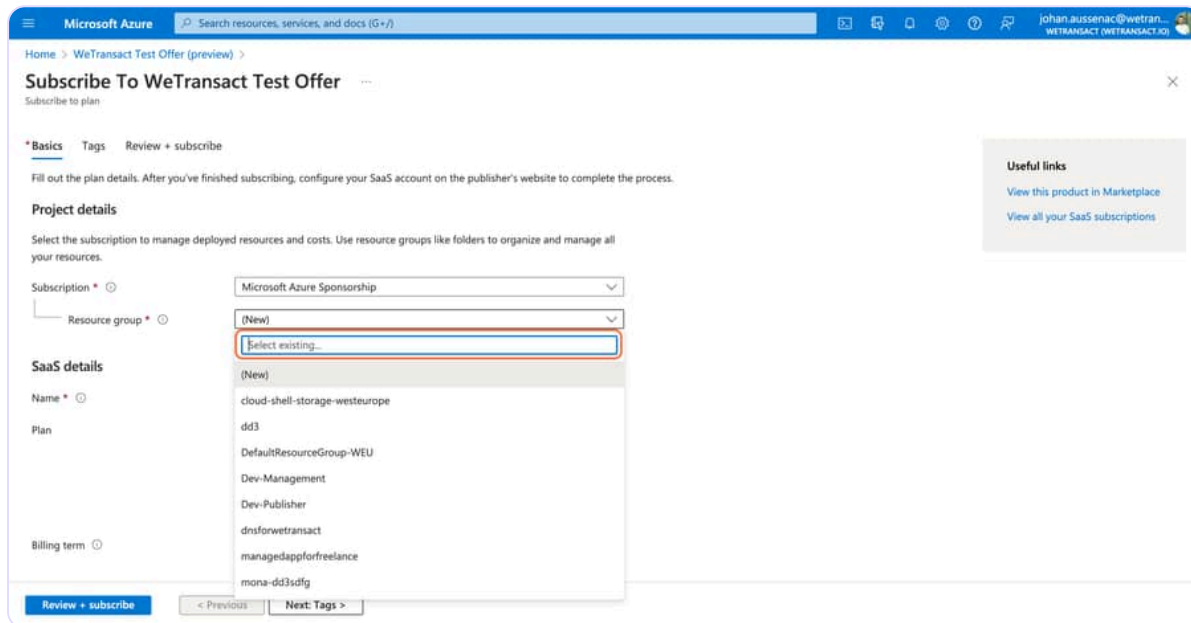

● Verify you have selected the right Plan and then click on "Subscribe"

● Select the "Resource Group" into which the "WeTransact" SaaS resource will be deployed

FAQ at this stage:

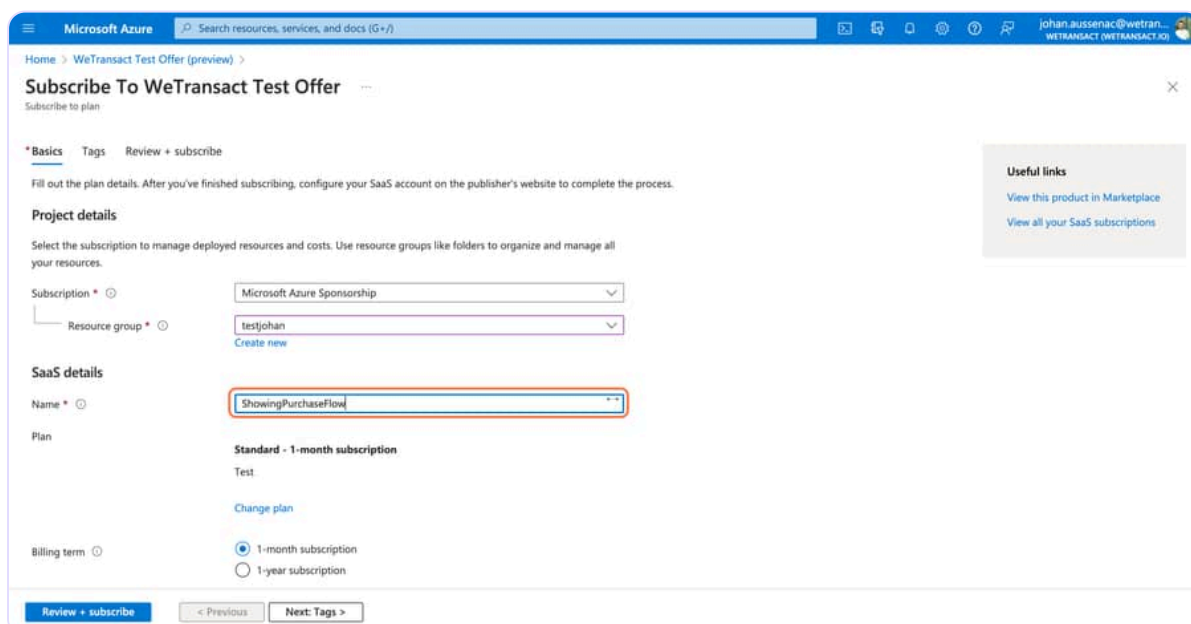

- **Which Resource Group should I deploy "WeTransact" into?**
- Answer: I would advise creating a new one named "MarketplacePurchases". This is where you'll find all your apps procured through Marketplace.
- **Why did Azure create a 'SaaS resource' if the application isn't running in my Azure account?**
- Answer: The reason Azure creates SaaS resources is to ease transactions with the product. In other words, you'll find all the transaction information about one product by clicking on the SaaS resource. You will also be able to cancel/change or deactivate the renewal of the subscription clicking on that resource.

The screenshot shows the 'Subscribe To WeTransact Test Offer' page in the Microsoft Azure portal. The 'Project details' section is active, and the 'Resource group' dropdown menu is open. The menu lists several existing resource groups, including 'cloud-shell-storage-west-europe', 'dd3', 'DefaultResourceGroup-WEU', 'Dev-Management', 'Dev-Publisher', 'dnsforwetranact', 'managedappprofreliance', and 'mona-dd3sdfg'. The 'Select existing...' option is highlighted with a red box.

● Assign a name to the WeTransact SaaS resource.

We recommend assigning a name that makes the resource easy to reference. We advise the following format: "WeTransact_Nameoftheplan"

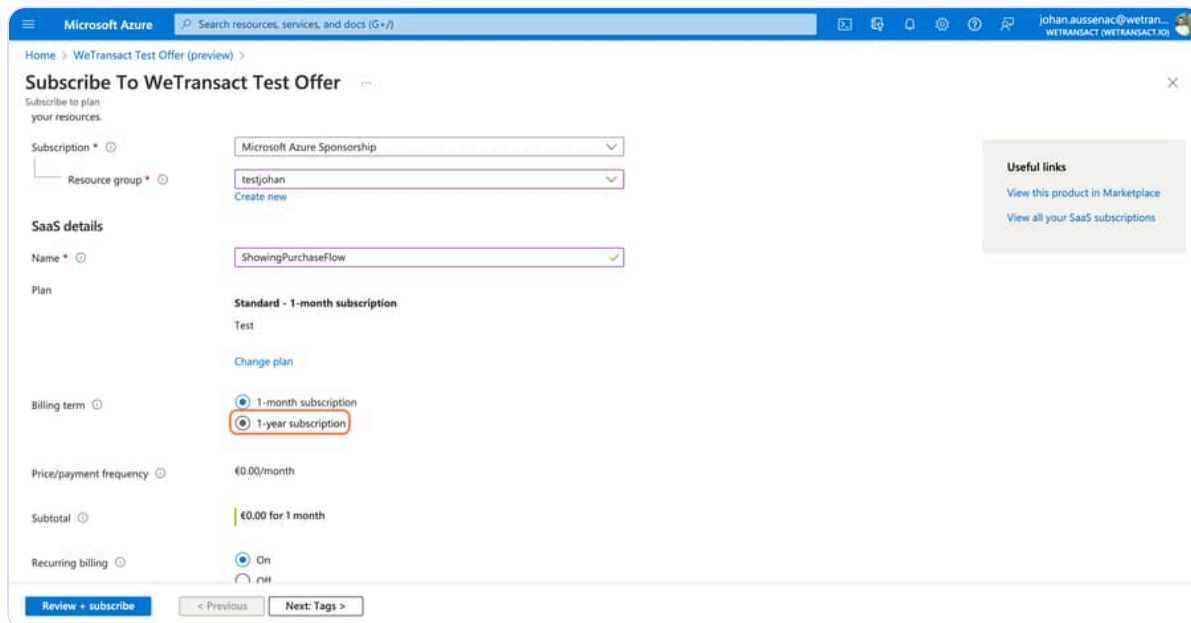

The screenshot shows the 'Subscribe To WeTransact Test Offer' page in the Microsoft Azure portal. The 'SaaS details' section is active, and the 'Name' field is highlighted with a red box. The field contains the text 'ShowingPurchaseFlow'. The 'Plan' section shows 'Standard - 1-month subscription' and 'Test' as the selected options. The 'Billing term' section shows '1-month subscription' as the selected option.

Select the billing frequency

WeTransact offers the flexibility to pay monthly or annually. Regardless of the billing frequency, this is an annual commitment.

1 year paid upfront is generally 15% less expensive.

Next steps
Configure SaaS account

To complete the purchase, configure your SaaS account on the publisher's website. We've sent you an email confirmation with instructions on configuring this SaaS account.

Configure account now

Important to know

Billing will start after your account is configured on the publisher's website.

If no action is taken within 30 days, this SaaS subscription will be automatically deleted.

Your SaaS subscription will appear on the [SaaS](#) page in the Azure portal. To access it easily, save it to your favorite services or pin it to the dashboard.
