

I have added WeTransact, but support/bot can't log in.

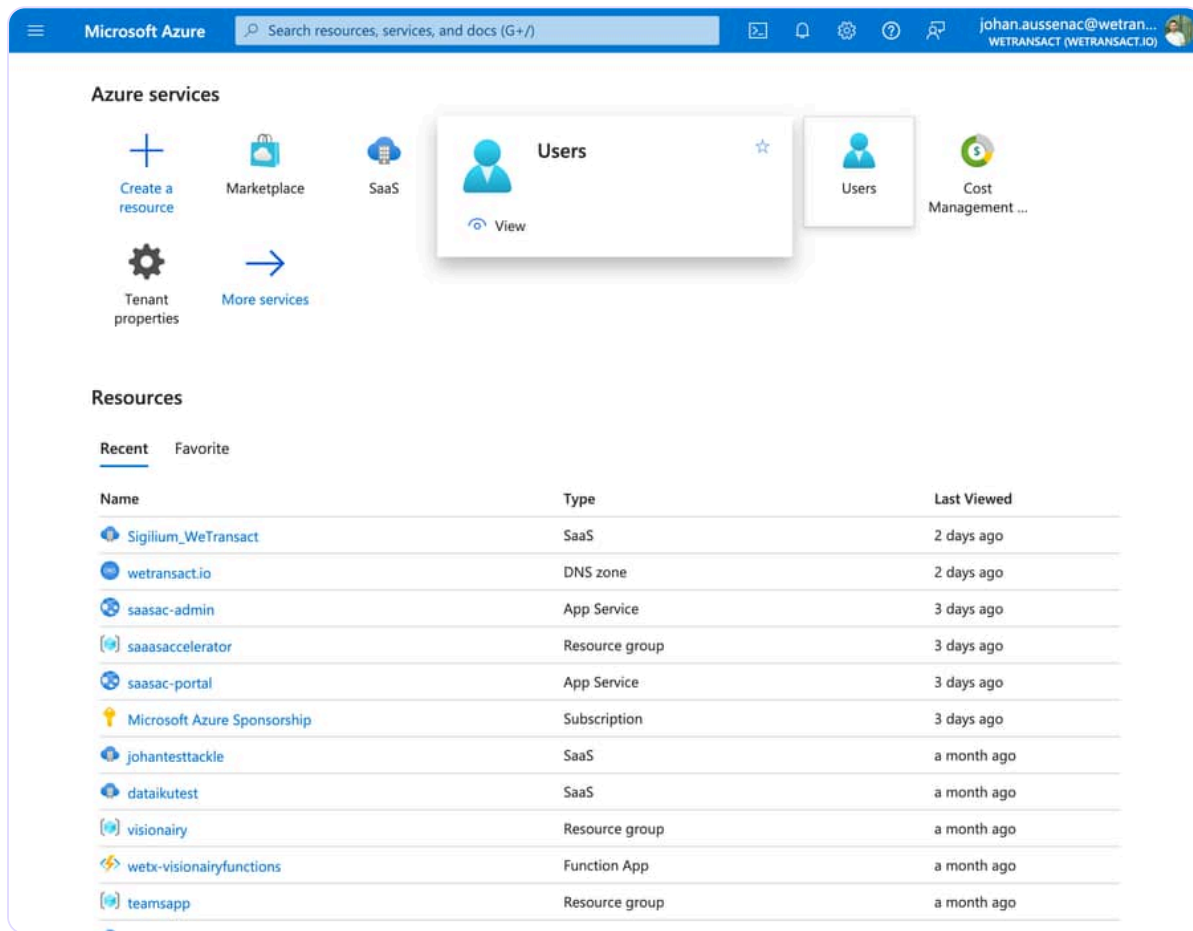

docs.wetransact.io/i-have-added-wetransact-but-supportbot-cant-log-in

Error Message: "Access is blocked by the organization"

It appears there are policies or restrictions in place that are preventing the required action from being completed. These may exist in one of three areas outlined below. Let us guide you through identifying and resolving the issue. Please check below:

First Check - Is the User activated ? Starting from portal.azure.com

Browse to the Users tab. If it doesn't show up on homepage, you alternatively type "Users" on the search bar and navigate there.

The screenshot shows the Microsoft Azure portal interface. The top navigation bar includes the Microsoft Azure logo, a search bar, and user information for johan.aussenac@wetransact.io. The main content area is divided into two sections: Azure services and Resources.

Azure services

- Create a resource
- Marketplace
- SaaS
- Tenant properties
- More services
- Users** (selected, with a 'View' link)
- Users
- Cost Management ...

Resources

Recent Favorite

saasaccelerator	Resource group	3 days ago
saasac-portal	App Service	3 days ago
Microsoft Azure Sponsorship	Subscription	3 days ago
johantesttackle	SaaS	a month ago
dataikutest	SaaS	a month ago
visionairy	Resource group	a month ago
wetx-visionairyfunctions	Function App	a month ago
teamsapp	Resource group	a month ago

● Check on the "bot@wetransact.io" and repeat the operation for "support@wetransact.io".

The screenshot shows the Microsoft Azure portal interface for managing users in a Microsoft Entra ID tenant named 'WeTransact'. The 'Users' page is active, showing a list of 78 users found. The user 'bot@wetransact.io' is highlighted in the list. The user's details are as follows:

Display name	User principal name	User type	On-premises sync	Identities
bot@wetransact.io	admin_wtrpa.org#EXT#@...	Guest	No	wetransactdo

● On the overview tab - please make sure the "Account Status" is showing "Enabled" if not click on Edit and enable it.

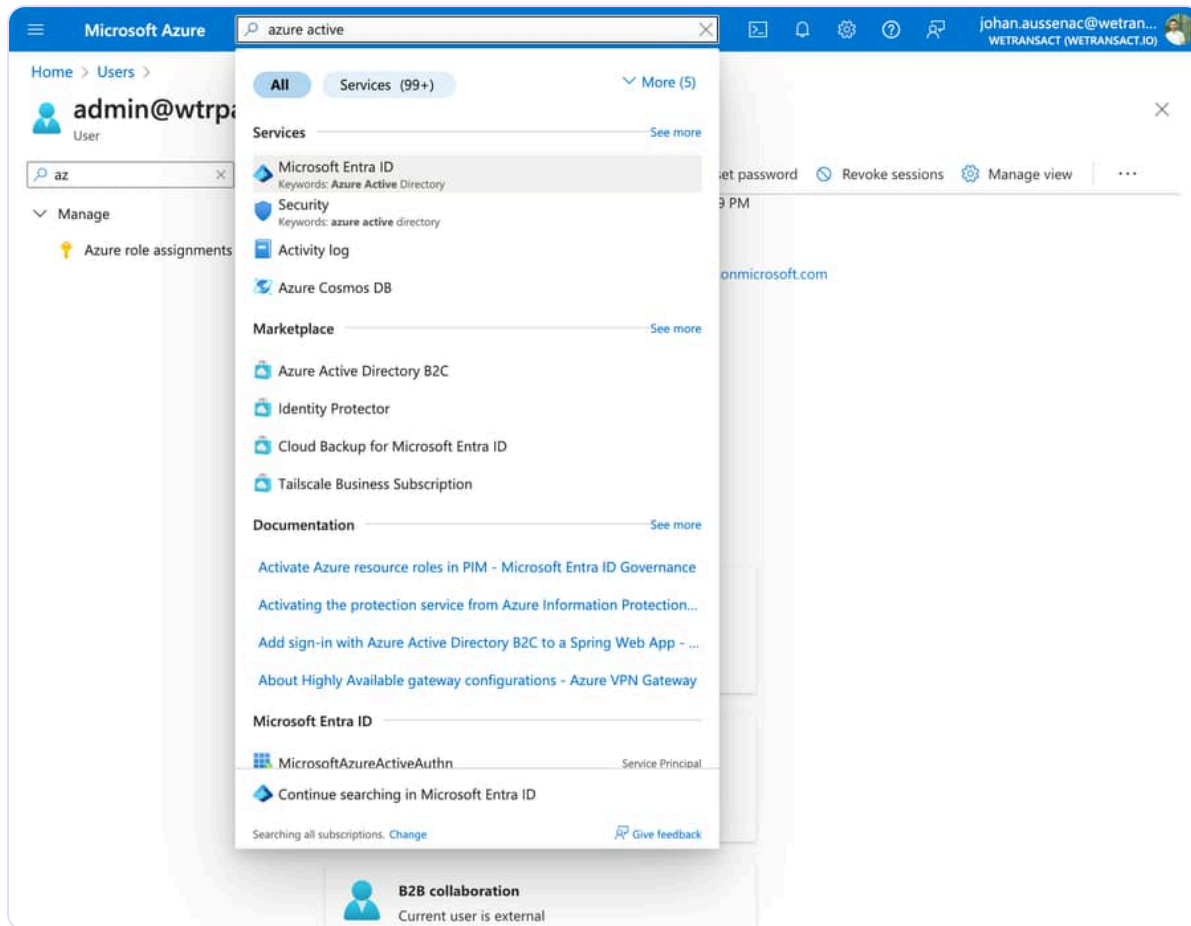

The screenshot shows the Microsoft Azure portal interface. At the top, the header includes the Microsoft Azure logo, a search bar, and the user's profile (johan.aussenac@wetransact.io). The main content area is titled 'admin@wtrpa.org' and shows the 'Overview' tab selected in the left-hand navigation menu. The overview card displays user details: Created date time (Aug 9, 2023, 4:19 PM), User type (Guest), Identities (wetransactdotio.onmicrosoft.com), Group memberships (1), Applications (1), Assigned roles (0), and Assigned licenses (0). Below this, the 'My Feed' section contains three items: 'Account status' (Enabled), 'B2B invitation' (Invitation state: PendingAcceptance), and 'B2B collaboration' (Current user is external). The 'Account status' item is highlighted with a red box, and the 'Enabled' status is indicated by a green checkmark.

Property	Value
Created date time	Aug 9, 2023, 4:19 PM
User type	Guest
Identities	wetransactdotio.onmicrosoft.com
Group memberships	1
Applications	1
Assigned roles	0
Assigned licenses	0

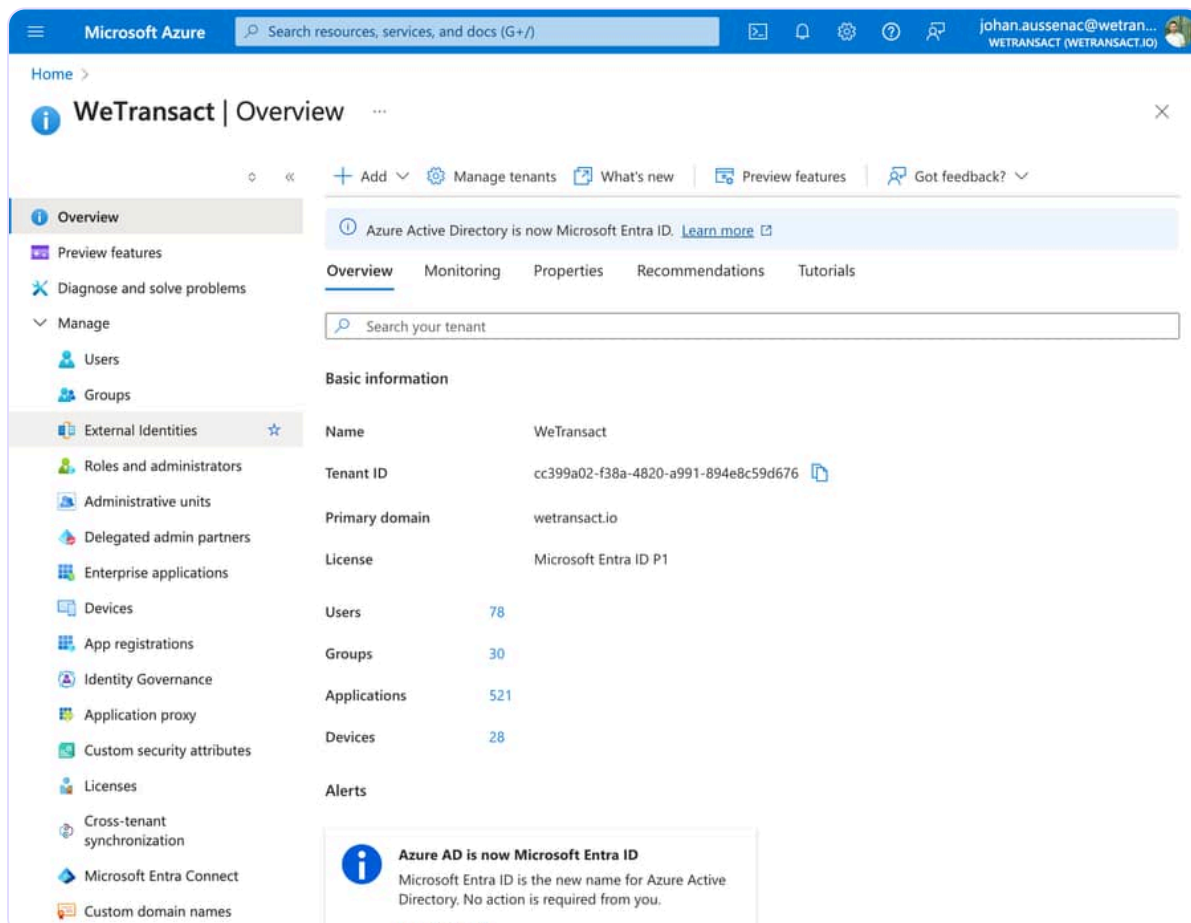

My Feed

- Account status**
Enabled
[Edit](#)
- B2B invitation**
Invitation state: PendingAcceptance
[Resend invitation](#)
- B2B collaboration**
Current user is external

Second Check - External Collaboration Settings - navigate to Microsoft Entra Id

Click on External Identities

● Click on External collaboration settings

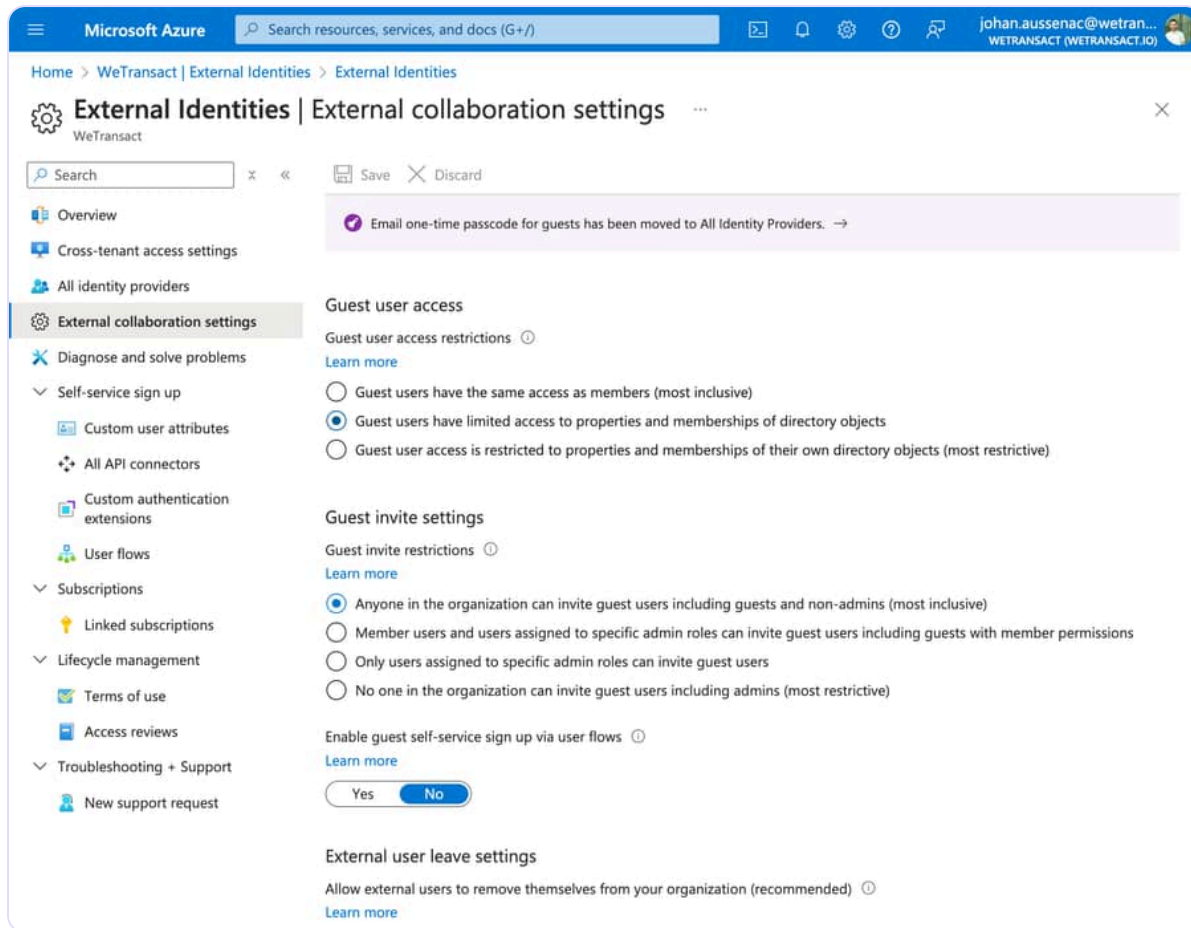

The screenshot displays the Microsoft Azure portal interface for 'External Identities | External collaboration settings'. The top navigation bar shows the Microsoft Azure logo and a search bar. The left-hand navigation pane lists various settings categories, with 'External collaboration settings' currently selected. The main content area is divided into three sections: 'Guest user access', 'Guest invite settings', and 'External user leave settings'. A notification banner at the top indicates that email one-time passcodes for guests have been moved to All Identity Providers. In the 'Guest user access' section, the 'Guest user access restrictions' are configured to 'Guest users have limited access to properties and memberships of directory objects'. The 'Guest invite settings' section shows 'Guest invite restrictions' set to 'Anyone in the organization can invite guest users including guests and non-admins (most inclusive)'. The 'External user leave settings' section has the option 'Allow external users to remove themselves from your organization (recommended)' checked.

● Check that Guest users have

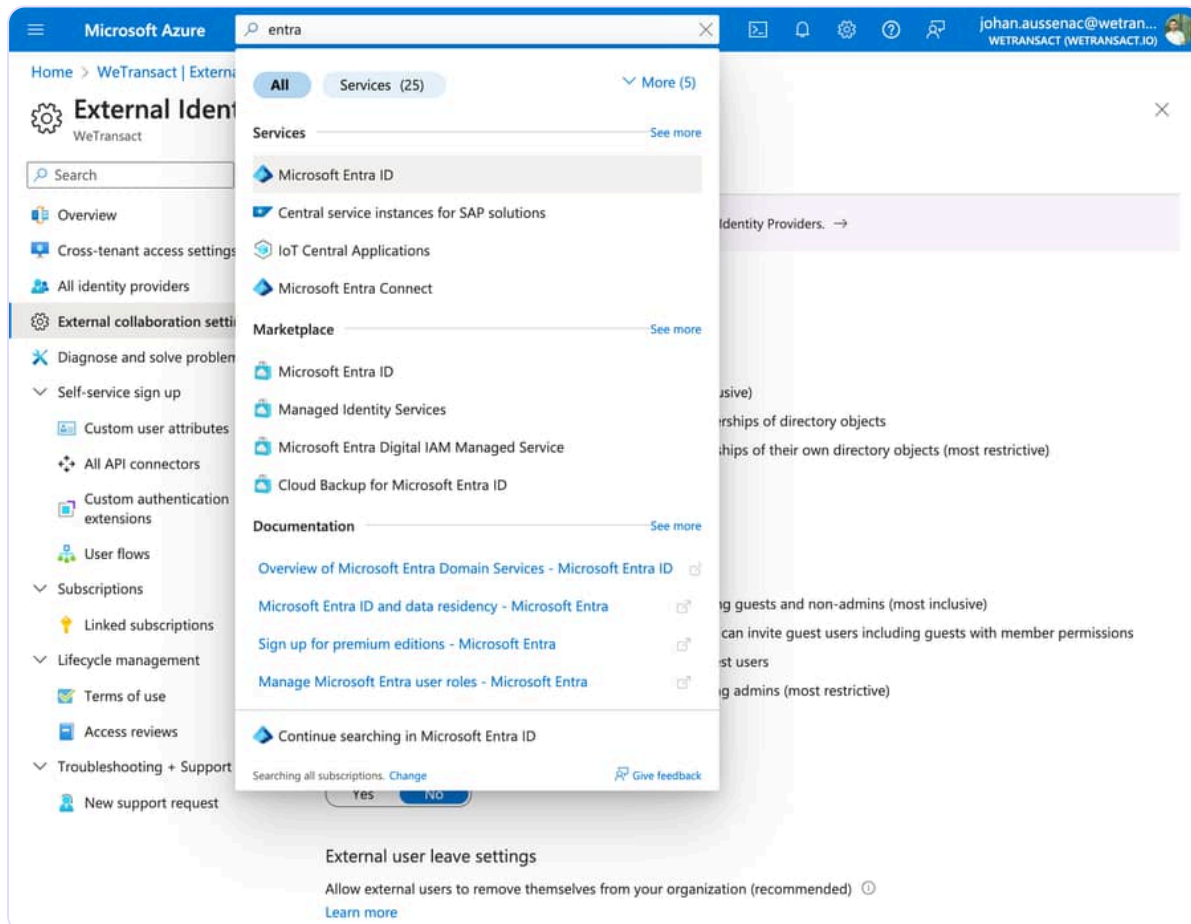

either 1. The Same access as members (not recommended)

OR 2. Guest users have limited access to properties and memberships of directory objects.

If not please perform the change

Third Check - Check on the Conditional Access Policies - Navigate to Microsoft Entra ID

Click on Security

Microsoft Azure | Search resources, services, and docs (G+/)

Home > WeTransact | Overview

Administrative units, Delegated admin partners, Enterprise applications, Devices, App registrations, Identity Governance, Application proxy, Custom security attributes, Licenses, Cross-tenant synchronization, Microsoft Entra Connect, Custom domain names, Mobility (MDM and WIP), Password reset, Company branding, User settings, Properties, Security, Monitoring, Troubleshooting + Support

Overview, Monitoring, Properties, Recommendations, Tutorials

Search your tenant

Basic information

Name	WeTransact
Tenant ID	cc399a02-f38a-4820-a991-894e8c59d676
Primary domain	wetransact.io
License	Microsoft Entra ID P1
Users	78
Groups	30
Applications	521
Devices	28

Alerts

Azure AD is now Microsoft Entra ID
Microsoft Entra ID is the new name for Azure Active Directory. No action is required from you.
