

Configuring Cross-Tenant Access for WeTransact in Microsoft Entra

docs.wetransact.io/configuring-cross-tenant-access-for-wetransact-in-microsoft-entra

Click on Expand External Identities section

Click on Cross-tenant access settings

Click on Add organization

The screenshot shows the Microsoft Entra admin center interface. The left sidebar contains navigation links for Home, What's new, Diagnose & solve problems, Favorites, Identity, Overview, Users, Groups, Devices, Applications, Roles & admin, Protection, Identity Governance, External Identities, Overview, All identity providers, User flows, Custom authentication extensions, Cross-tenant access settings, External collaboration settings, Cross-tenant synchronization, Show more, Protection, Microsoft Governance, and Learn & support. The main content area is titled 'External Identities | Cross-tenant access settings'. It includes a search bar, a 'Get feedback?' link, and tabs for 'Organizational settings', 'Default settings', and 'Microsoft cloud settings'. The 'Organizational settings' tab is active, showing a '+ Add organization' button, a 'Refresh' button, and a 'Columns' button. Below this, there is a search bar labeled 'Search by domain name or tenant ID' and a dropdown menu for 'Inherited from multi-tenant organization'. A table lists 2 organizations found, with columns for Name, Inbound access, Outbound access, and Tenant restrictions. The table shows two organizations: 'Squidre' and 'Bx Cloud', both with 'Inherited from default' values for Inbound and Outbound access, and 'Inherited from default' for Tenant restrictions.

Type "wetransact.io"

The screenshot shows the Microsoft Entra admin center interface with the 'Add organization' dialog box open. The dialog box has a title bar 'Add organization' and a subtitle 'Cross-tenant settings'. It contains the text 'Add an external Microsoft Entra tenant by typing one of its domain names or tenant ID if from another Microsoft cloud.' Below this is a text input field containing 'wetransact.io'. At the bottom of the dialog box are 'Add' and 'Discard' buttons.

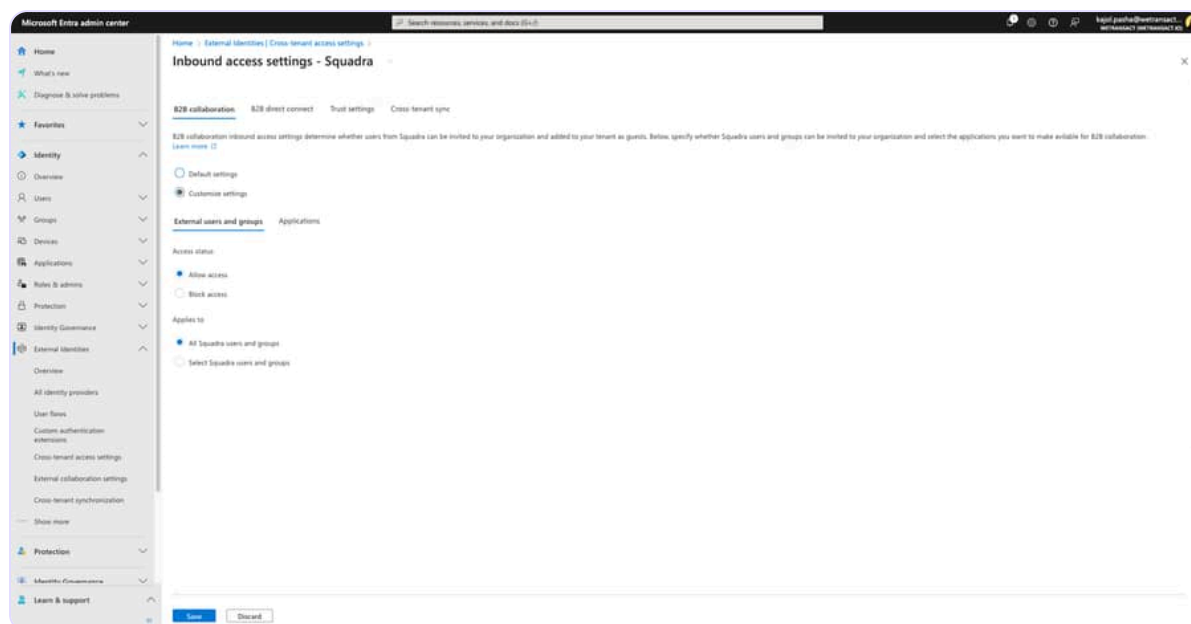

Click on Add

The screenshot shows the Microsoft Entra admin center interface. The left sidebar contains navigation links for Home, What's new, Diagnose & solve problems, Favorites, Identity, Overview, Users, Groups, Devices, Applications, Roles & admin, Protection, Identity Governance, External Identities, Overview, All identity providers, User flows, Custom authentication extensions, Cross-tenant access settings, External collaboration settings, Cross-tenant synchronization, Show more, Protection, Microsoft Governance, and Learn & support. The main content area is titled 'External Identities | Cross-tenant access settings' and includes tabs for Overview, Cross-tenant access settings, All identity providers, External collaboration settings, Diagnose and solve problems, Self-service sign-up, Custom user attributes, All API connectors, Custom authentication extensions, User flows, Subscriptions, Linked subscriptions, Lifecycle management, Terms of use, Access review, Troubleshooting & Support, and New support request. The 'Cross-tenant access settings' tab is active, showing 'Organizational settings', 'Default settings', and 'Microsoft cloud settings'. A search bar is present with the text 'Search by domain name or tenant ID'. Below it, a message states: 'Organizational settings are cross-tenant access settings you've configured for specific Microsoft Entra tenants. Any Microsoft Entra tenants not listed here will use the default settings.' A table shows '2 organizations found' with columns for Name, Inbound access, Outbound access, and Tenant restrictions. The table lists 'WeTransact.io' with all settings set to 'Inherited from default'. On the right, the 'Add organization' dialog box is open, prompting to 'Add an external Microsoft Entra tenant by typing one of its domain names or tenant ID if from another Microsoft cloud.' The 'Name' field contains 'WeTransact' and the 'Tenant ID' field contains 'u379a52133a-4820-4f81-8b4dc13d678'. 'Add' and 'Discard' buttons are at the bottom.

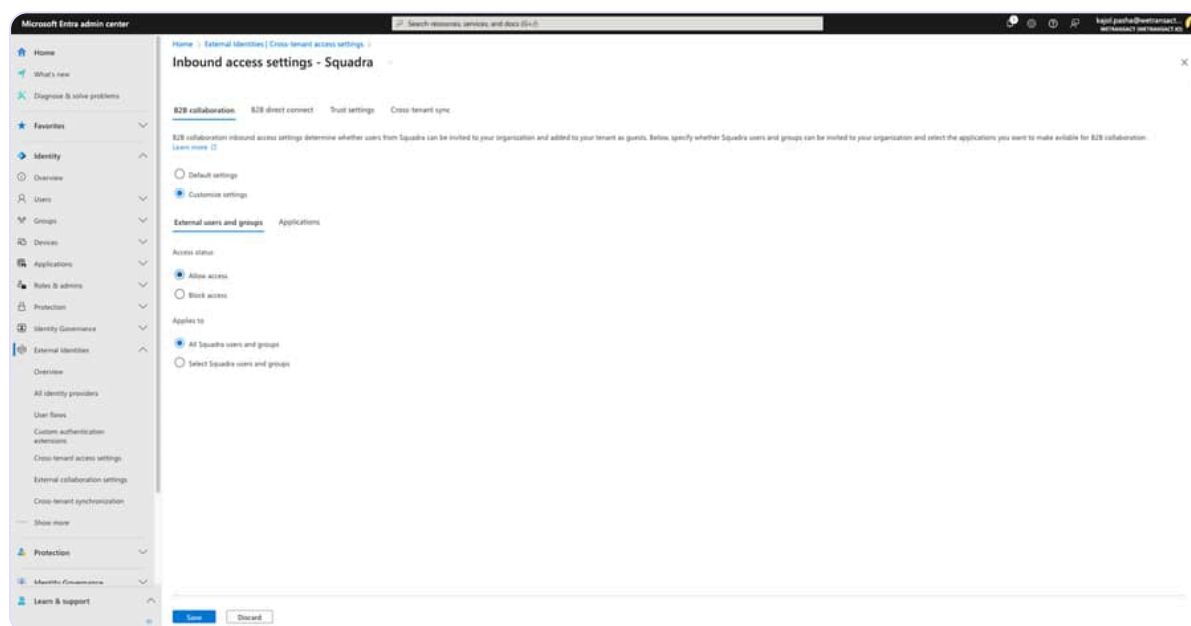

Click on Inherited from default

This screenshot is identical to the one above, showing the Microsoft Entra admin center interface with the 'Add organization' dialog box open. The focus is on the 'Inherited from default' text in the table, which is highlighted by a yellow rectangular box. The table lists 'WeTransact.io' with all settings set to 'Inherited from default'. The 'Add organization' dialog box is also visible on the right, with the 'Name' field containing 'WeTransact' and the 'Tenant ID' field containing 'u379a52133a-4820-4f81-8b4dc13d678'.

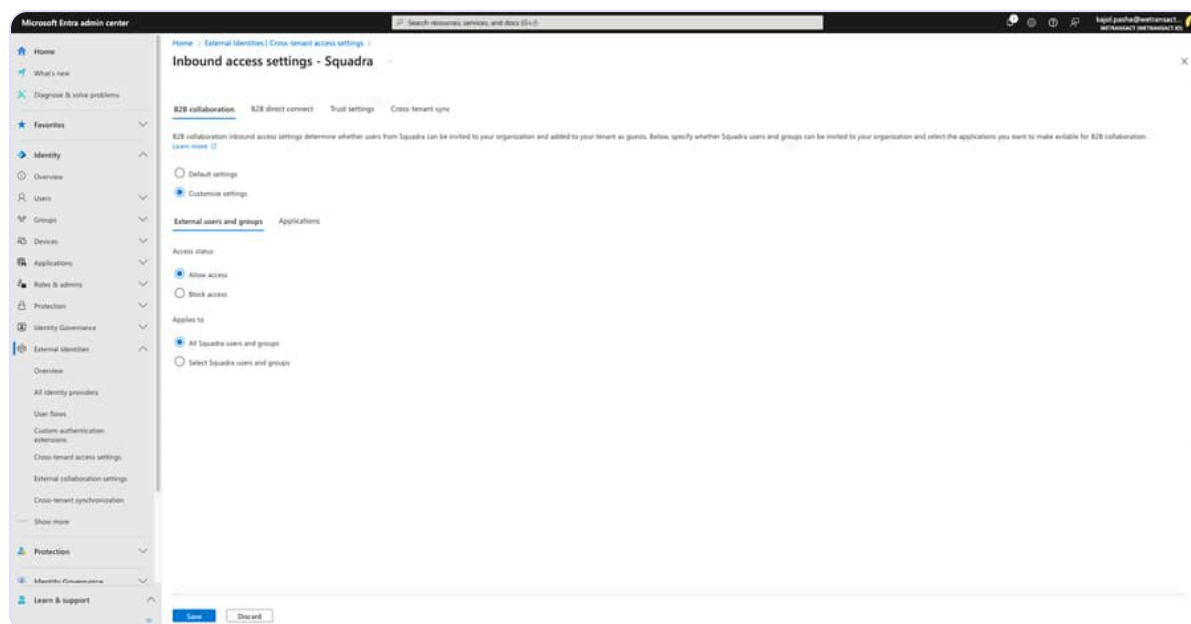

Select Customize settings

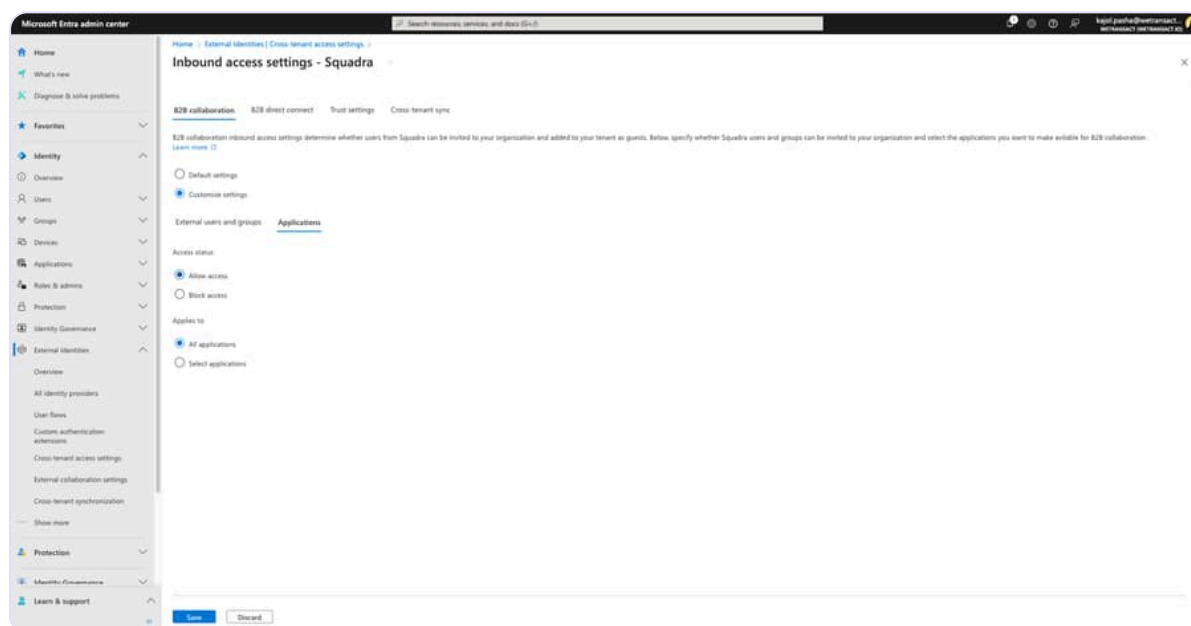

Select Allow access

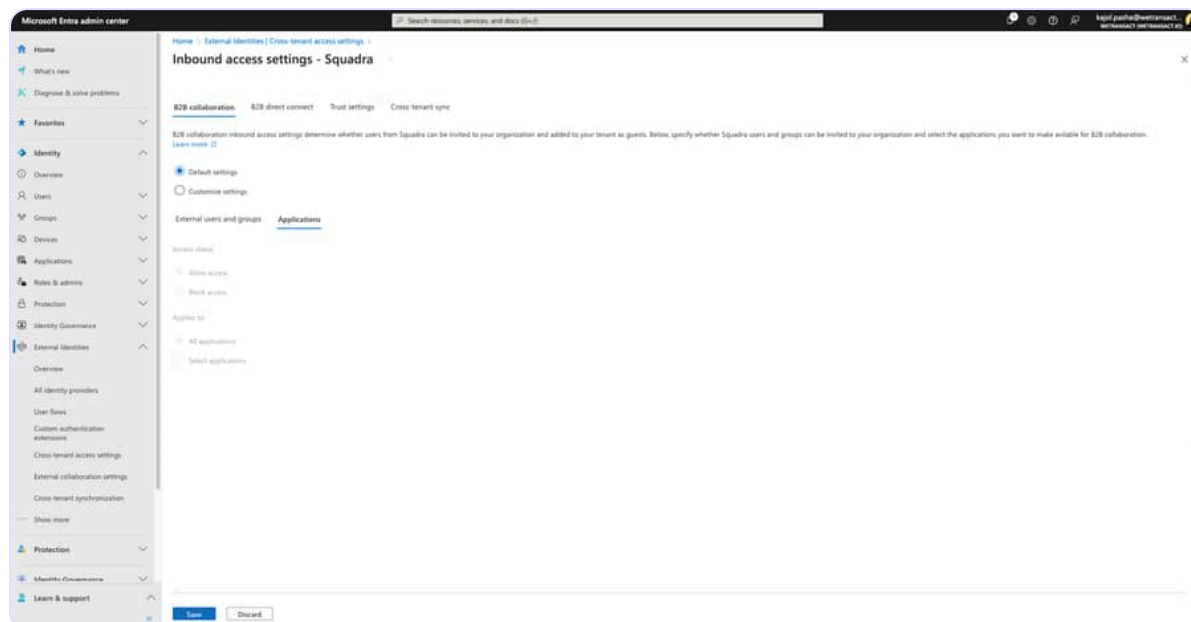

Click on Applications

Select Allow access
