

How to Add a Location and Publisher Account in Partner Center

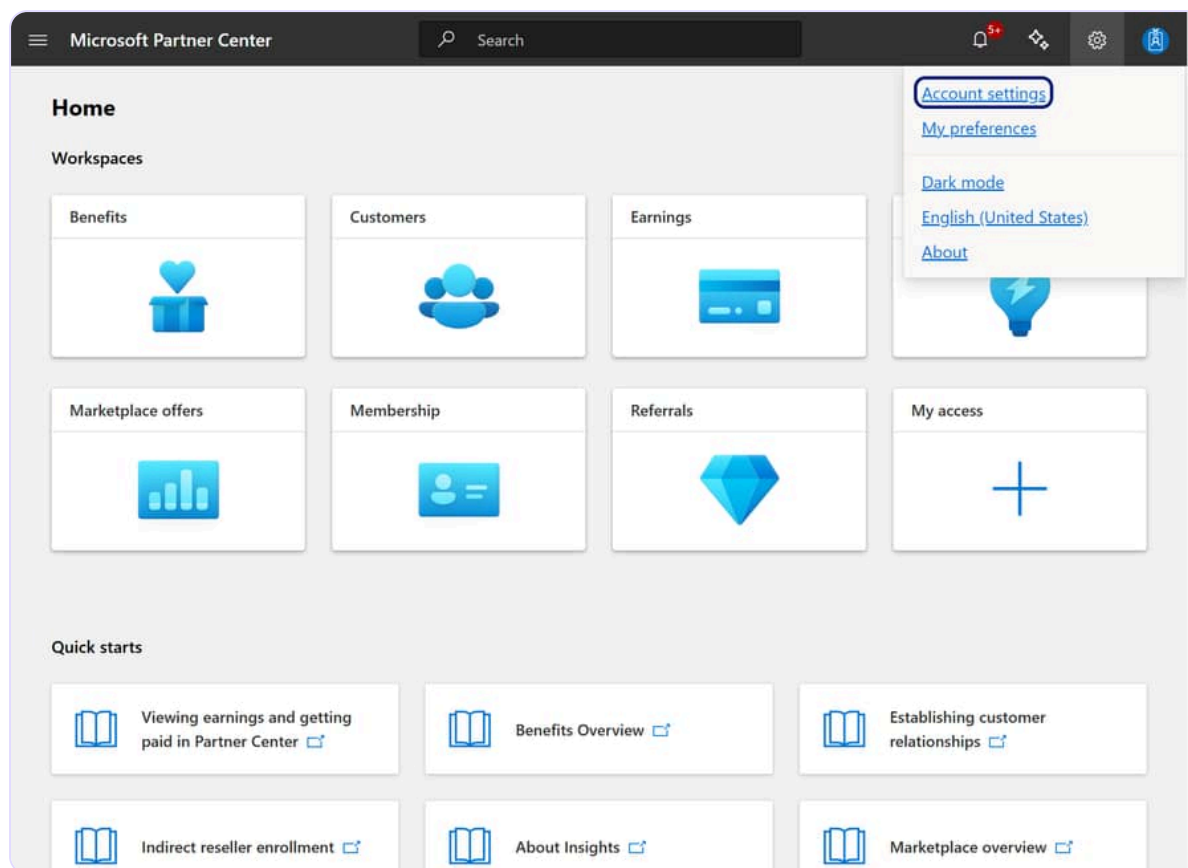

docs.wetransact.io/how-to-add-a-location-and-publisher-account-in-partner-center

Adding a location and publisher account in Partner Center lets you operate in different regions, meet local compliance requirements, and manage offers under the correct legal entity, ensuring accurate listings and payouts.

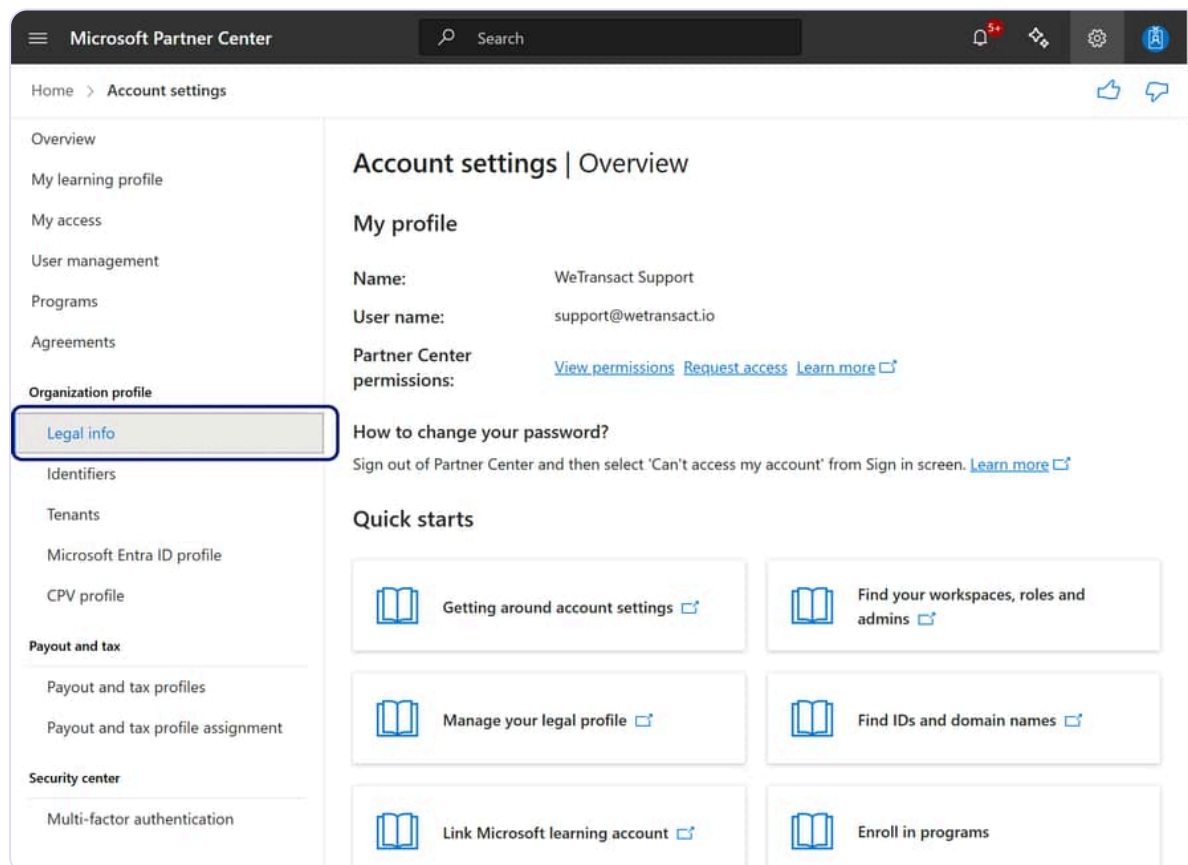

1. Click on Settings

2. Click on Account settings

3. Click on Legal info

4. Click on Business Locations

The screenshot shows the Microsoft Partner Center interface. The top navigation bar includes the Microsoft Partner Center logo, a search bar, and icons for notifications, settings, and user profile. The left sidebar lists various account settings categories: Overview, My learning profile, My access, User management, Programs, Agreements, Organization profile, Legal info (highlighted), Identifiers, Tenants, Microsoft Entra ID profile, CPV profile, Payout and tax, Security center, and Multi-factor authentication. The main content area is titled 'Account settings | Legal info' and includes a sub-header 'Each tab displays details for aspects of your business.' Below this, there are tabs for Partner (selected), Reseller, and Developer. The 'Legal business profile' section shows a 'Verification status' of 'Authorized' and 'Company details' for 'WeTransact' with an 'Update' link. The company details include the name, legal address (32 rue du Plat, Lyon, Rhone, 69002, France), primary contact (Johan Aussenac), security contact (Johan Aussenac), and partner ID. A list of expandable sections is shown at the bottom: Profile info, Program info, Business locations, and Company merge history.

5. Click on '+ Location'

The screenshot shows the Microsoft Partner Center interface, specifically the 'Business locations' section. The top navigation bar and left sidebar are the same as in the previous screenshot. The main content area is titled 'Business locations' and includes a sub-header 'Provider program or incentives programs.' and a 'Learn more' link. Below this, it states '26 locations in total' and shows a '+ Location' button (highlighted with a red box) and a search bar. The table below has two columns: 'Location company name' and 'Location Partner ID'. The table is currently empty. At the bottom, there are navigation links: '< Previous', '1', '2', '3', and 'Next >'.

6. Fill-up needed details

After you have clicked on '+ Location', a slide modal will appear right side where you will need to add details on the new business location (i.e. company name, address). Once saved, proceed with Step 7.

7. Click on Identifiers

Add Publisher

Step 1: Choose a program

☒ **Commercial Marketplace**
Develop innovative, ready to use cloud-based solutions for Microsoft Azure.

☐ **Microsoft 365 and Copilot**
Register to publish plugins for Microsoft 365 Copilot and apps for Teams, Office, and SharePoint.

Currently this feature is available only for limited programs.

Next Cancel

10. Fill-up Details

- Choose the PartnerID (formerly MPN ID) that you want to associate with the publisher
- Add **Publisher details** on the form:
- **Publisher location:** Select the PartnerID (location).
- **Publisher name:** The name that's displayed in Microsoft 365 and Copilot with the add-in.
- **Seller ID:** An identifier that's used by Partner Center to uniquely identify the publisher. The default value for this field maps to an existing and unique Seller ID in the system.
- **Contact information:** Add/update the contact information when necessary.
- Select the **Accept and continue** check box and then select **Save**.
