

How to check Azure Consumption (ACR) in the Azure portal?

docs.wetransact.io/how-to-check-azure-consumption-acr-in-the-azure-portal

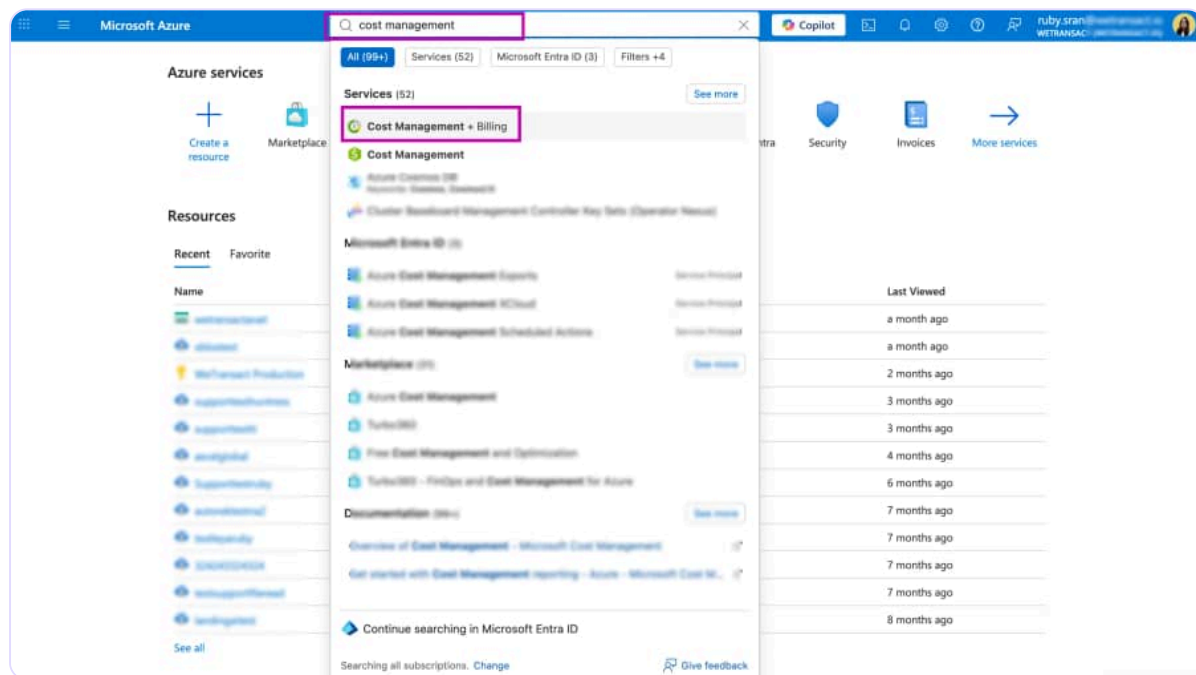

Understanding Azure Consumption :

ACR is critical for monitoring cloud spend, tracking customer usage, and validating marketplace transactions. Azure Consumption (ACR – Azure Consumption Revenue) reflects the actual usage-based charges generated within an Azure subscription.

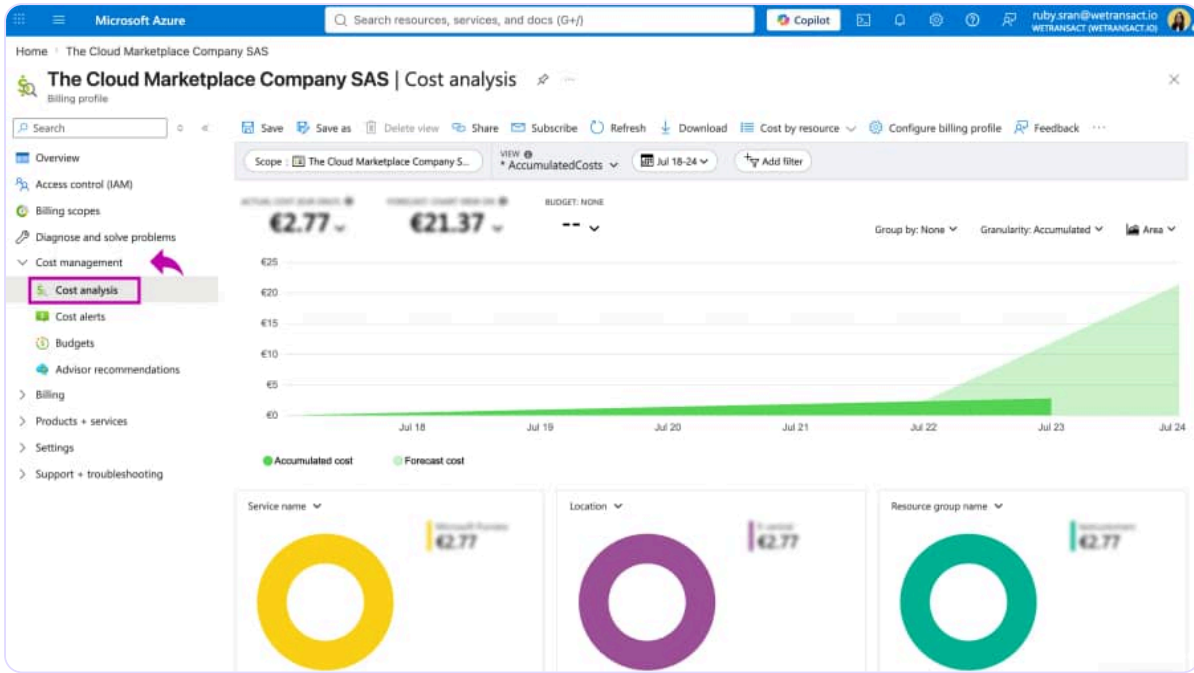

This document provides a step-by-step guide on how to check Azure Consumption directly in the Azure Portal.

● Sign in to the Azure portal and search 'Cost management.'

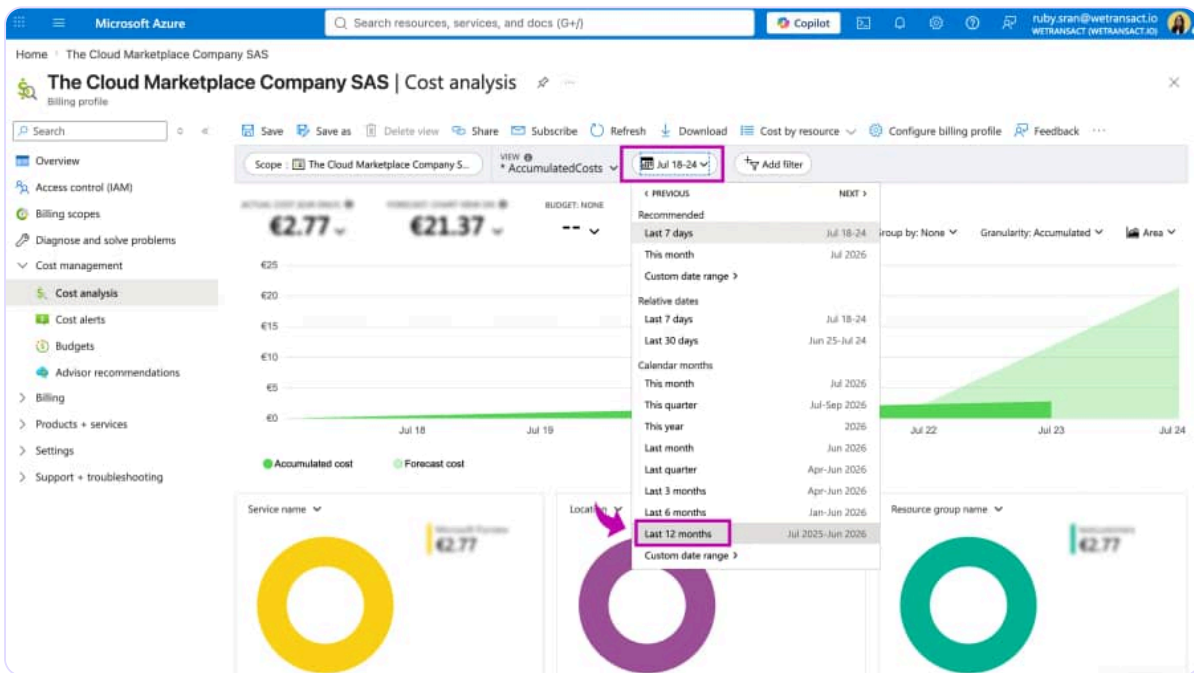

and select Cost management + Billing

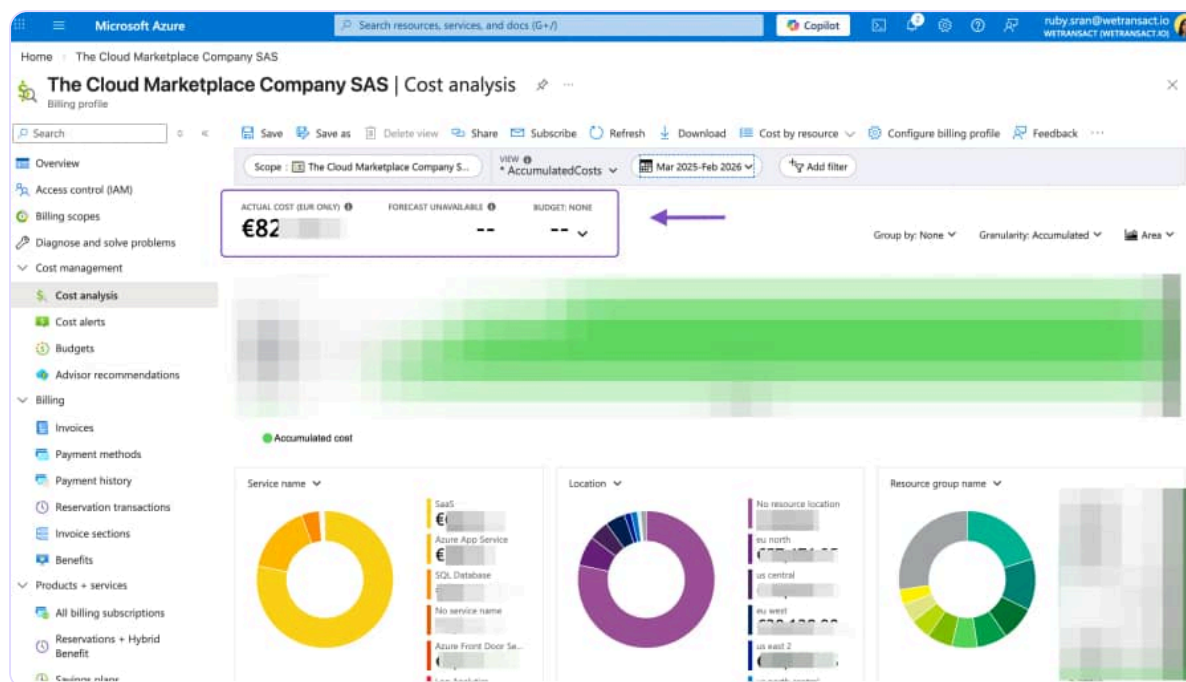

Go to 'Cost Analysis' under 'Cost management.'

If you wish user filter to select the period

You will be able to see the Azure consumption (ACR)
