

How to use existing terms and conditions for the product listing?

docs.wetransact.io/how-to-use-existing-terms-and-conditions-for-the-product-listing

If you already have your own Terms and Conditions, you can easily use them while setting up your product listing.

Select I want to use my existing terms and conditions....

The screenshot shows the 'Add Terms & Conditions' dialog in the Wetransact app. The dialog has a close button (X) in the top right corner. It contains three radio button options:

- ☐ **I want to create my contract with Cloud Contracts 365.** Most Protected
This option offers expert legal solutions for Microsoft Partners, making Cloud Contracts 365 the easiest, most reliable choice for hassle-free contracts.
- ☒ **I want to use my existing terms and conditions.**
Upload your own terms and conditions. Perfect for publishers who have their own set of agreements that they want to include.
- ☐ **I want to use Microsoft's standard contract.**
This option is the most efficient and widely used, as it allows publishers to quickly publish on the marketplace with Microsoft pre-written terms and conditions.

A 'Next >' button is located at the bottom right of the dialog.
