

I have added WeTransact, but support/bot can't log in.

docs.wetransact.io/i-have-added-wetransact-but-supportbot-cant-log-in

Error Message: "Access is blocked by the organization"

It appears there are policies or restrictions in place that are preventing the required action from being completed. These may exist in one of three areas outlined below. Let us guide you through identifying and resolving the issue. Please check below:

First Check - Is the User activated ? Starting from portal.azure.com

Browse to the Users tab. If it doesn't show up on homepage, you alternatively type "Users" on the search bar and navigate there.

Name	Type	Last Viewed
Sigillum_WeTransact	SaaS	2 days ago
wetransact.io	DNS zone	2 days ago
saasac-admin	App Service	3 days ago
saasaccelerator	Resource group	3 days ago
saasac-portal	App Service	3 days ago
Microsoft Azure Sponsorship	Subscription	3 days ago
johantesttackle	SaaS	a month ago
dataikutest	SaaS	a month ago
visionairy	Resource group	a month ago
webx-visionairyfunctions	Function App	a month ago
teamsapp	Resource group	a month ago

● Check on the "bot@wetransact.io" and repeat the operation for "support@wetransact.io".

ⓘ Azure AD is now Microsoft Entra ID

Microsoft Entra ID is the new name for Azure Active Directory. No action is required from you.

[Learn more](#)

● Click on External collaboration settings

The screenshot shows the Microsoft Azure portal interface. The top navigation bar includes the 'Microsoft Azure' logo, a search bar, and user information for 'johan.aussenac@wetran...'. The breadcrumb trail indicates the path: 'Home > WeTransact | External Identities > External Identities'. The main heading is 'External Identities | External collaboration settings'. A left-hand navigation pane lists various settings categories, with 'External collaboration settings' currently selected. The main content area displays a notification about moving email one-time passcodes, followed by three sections: 'Guest user access' (with radio button options for access levels), 'Guest invite settings' (with radio button options for invite permissions), and 'External user leave settings' (with a toggle for self-service sign up).

Documentation

Microsoft Entra ID offers a range of security features to protect your organization. To learn more, here are some features to start with.

- Microsoft Entra Conditional Access
- Microsoft Entra ID Protection
- Azure Security Center
- Identity Secure Score
- Named locations
- Authentication methods
- Multifactor authentication

Security guidance

For a strong security posture, we recommend the following:

- 5 steps to secure your identity infrastructure
- Microsoft Entra Password Guidance
- Microsoft Entra ID Data Security Whitepaper
- How Password Hash Sync (PHS) works

Deployment guides

To deploy the above features in your organization, check out [Microsoft Entra ID deployment plans](#).
