

How to add a profile as the billing owner

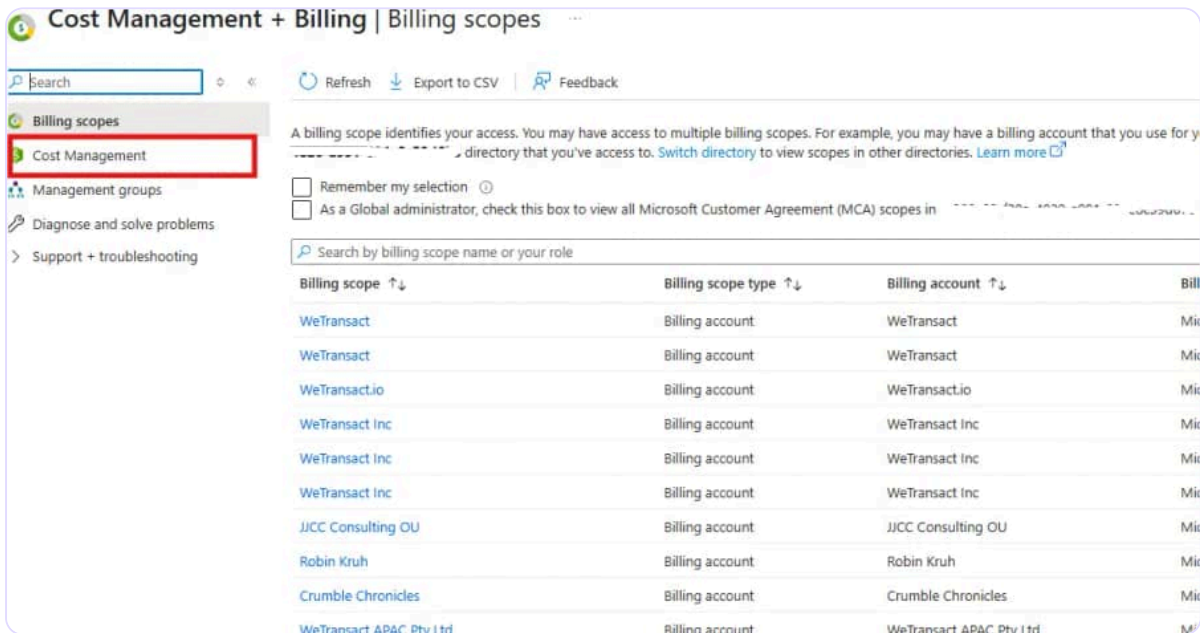

docs.wetransact.io/how-to-add-a-profile-as-the-billing-owner

Go to the [Azure Portal](#)

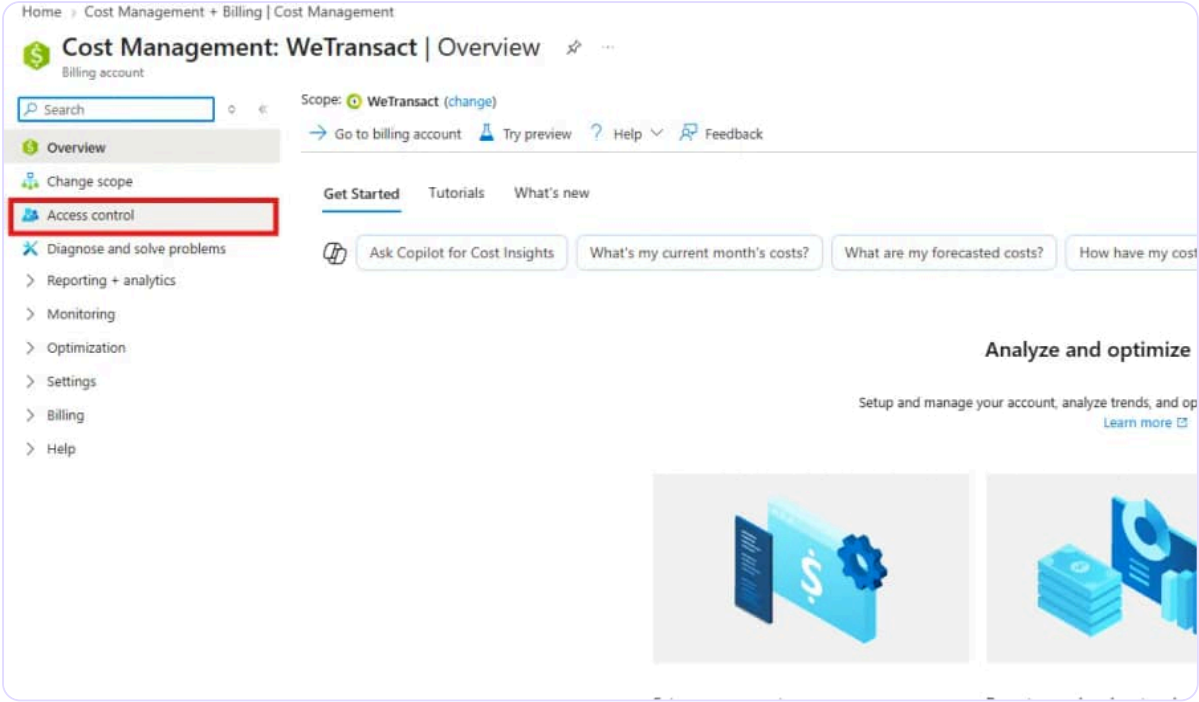

Click on Cost Management

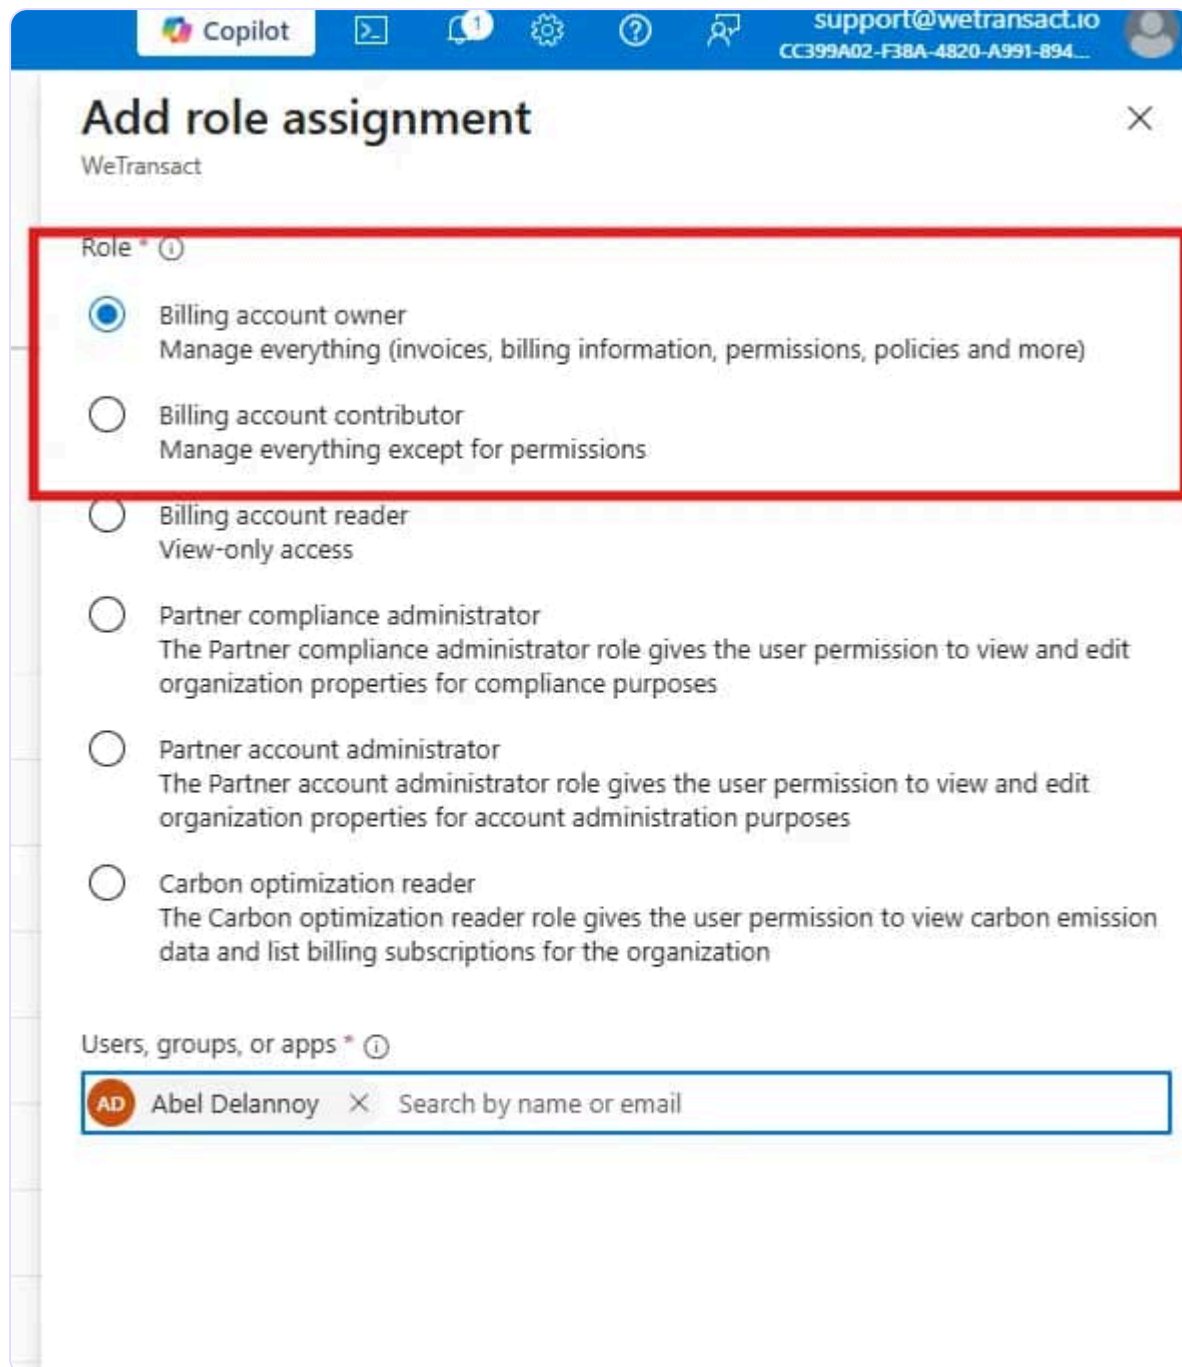

Then click Cost Management

Click on Access control

Then add the user you want as the billing admin

The screenshot shows the 'Add role assignment' dialog in the WeTransact application. The dialog has a blue header bar with the Copilot logo and various icons. The main title is 'Add role assignment' with a close button (X) in the top right corner. Below the title, the text 'WeTransact' is displayed. The 'Role *' section is highlighted with a red border and contains the following options:

- ☒ **Billing account owner**
Manage everything (invoices, billing information, permissions, policies and more)
- ☐ **Billing account contributor**
Manage everything except for permissions
- ☐ **Billing account reader**
View-only access
- ☐ **Partner compliance administrator**
The Partner compliance administrator role gives the user permission to view and edit organization properties for compliance purposes
- ☐ **Partner account administrator**
The Partner account administrator role gives the user permission to view and edit organization properties for account administration purposes
- ☐ **Carbon optimization reader**
The Carbon optimization reader role gives the user permission to view carbon emission data and list billing subscriptions for the organization

Below the roles, the 'Users, groups, or apps *' section is highlighted with a blue border and contains a search bar with the text 'Abel Delannoy' and a search icon (magnifying glass). The search bar also includes a close button (X) and the text 'Search by name or email'.
