Step 5 – Complete Your Payout & Tax Profile (48-hour Microsoft validation)

docs.wetransact.io/step-5-complete-your-payout-and-tax-profile-48-hour-microsoft-validation

Filling out your tax profile ensures Microsoft can process payments and comply with applicable tax laws. This step is required for both U.S. and non-U.S. companies, with each providing the appropriate bank details and tax forms based on their location.

This part of the Microsoft Platform is slow. Be patient with loading times. It can be filled on one go if done right.

If you don't feel confident doing so in a self serve way - we are always happy to set some time so we do it with screen sharing. Please don't hesitate.

Instructions:

1st, you will need to have the Finance & Business Contributor rights. You can verify that here:

If you don't, you can ask your global admin to provide you with the good level of rights following these steps here.

🟣 US Companies :

Here, you will learn how to complete your tax profile for American Companies. Filling out payout and tax details ensures you get paid and meet compliance requirements. U.S. companies must submit bank details and a W-9 form.
