Deal Registration: Create a New Co-sell Deal

docs.wetransact.io/deal-registration-create-a-new-co-sell-deal

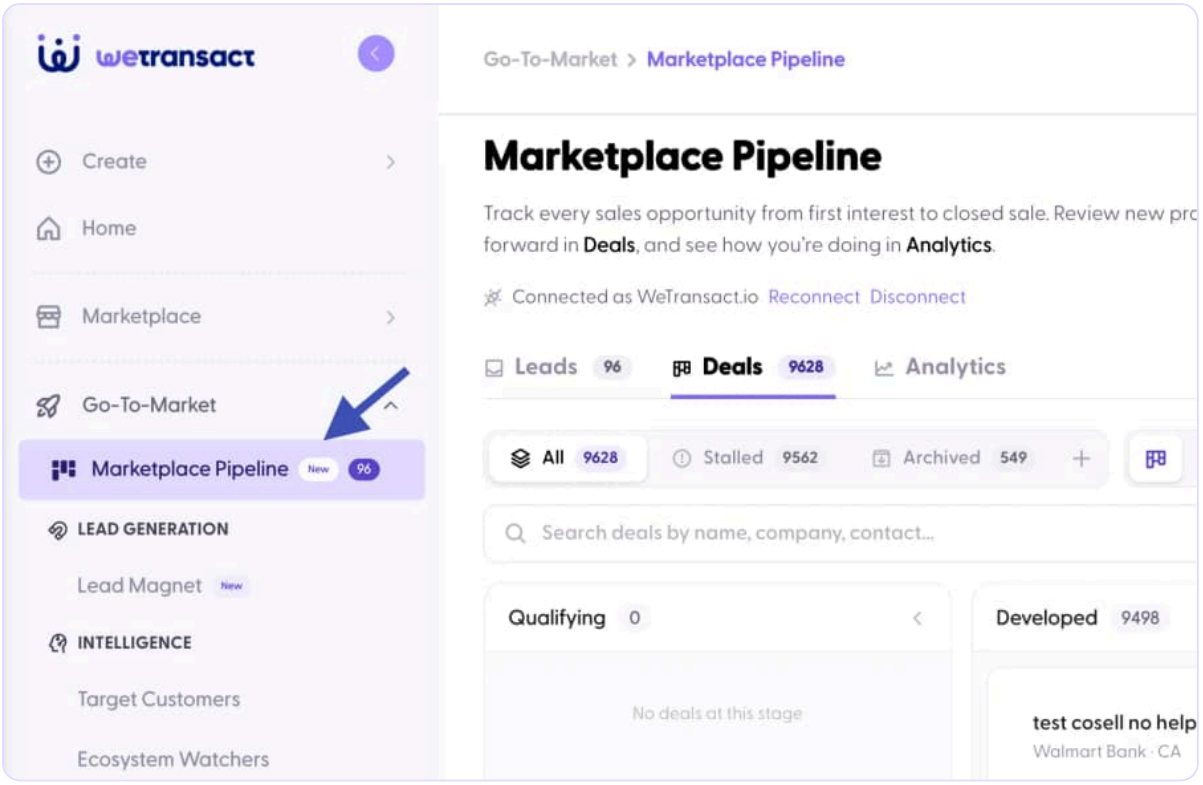

The Deal Registration tab is designed to facilitate the creation and management of Co-sell deals with Microsoft. This tool allows users to input the country and company name to generate a list of potential customers. It reduces the time and effort required to identify and engage with potential customers, particularly those who are managed accounts or MACC eligible.

ℹ️ The Orders Tab should be activated before setting up the Deal Registration Tab. For instructions on activating the Orders tab, go to this link.The user should have a Referral Admin role in Partner center to be able to complete this process.

🟣 Click on Go-To-Market

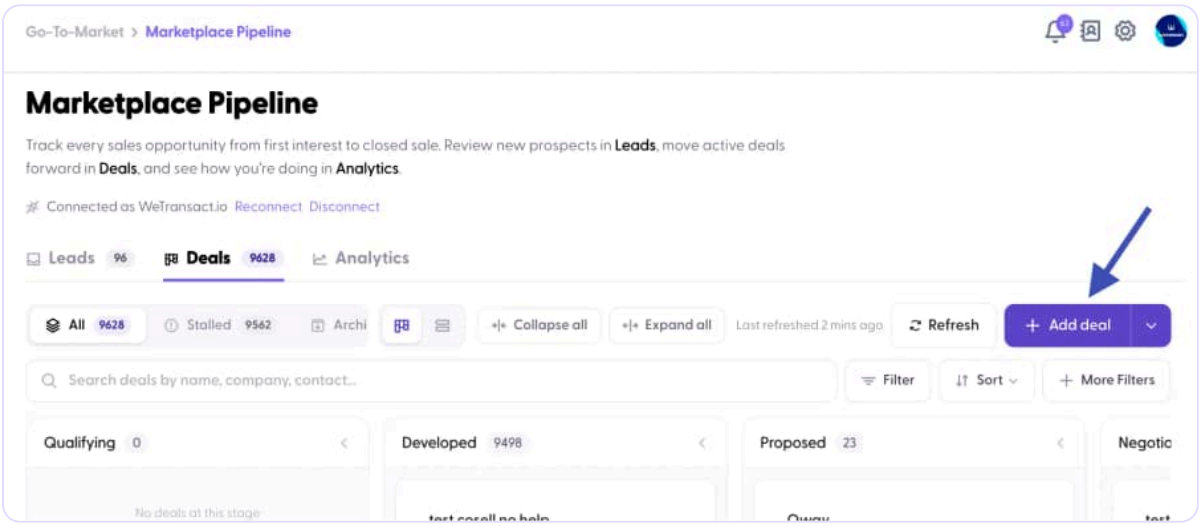

🟣 Click on Marketplace Pipeline

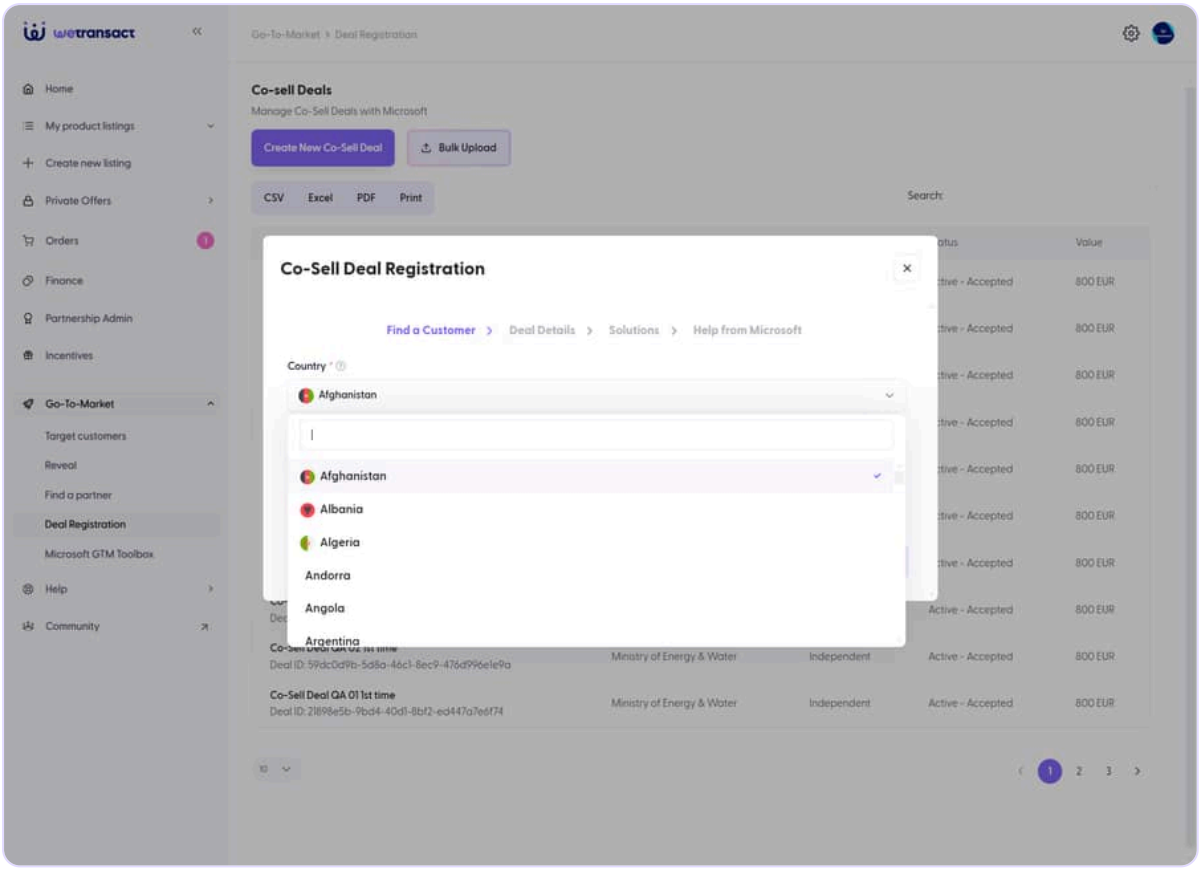

🟣 Click on + Add deal

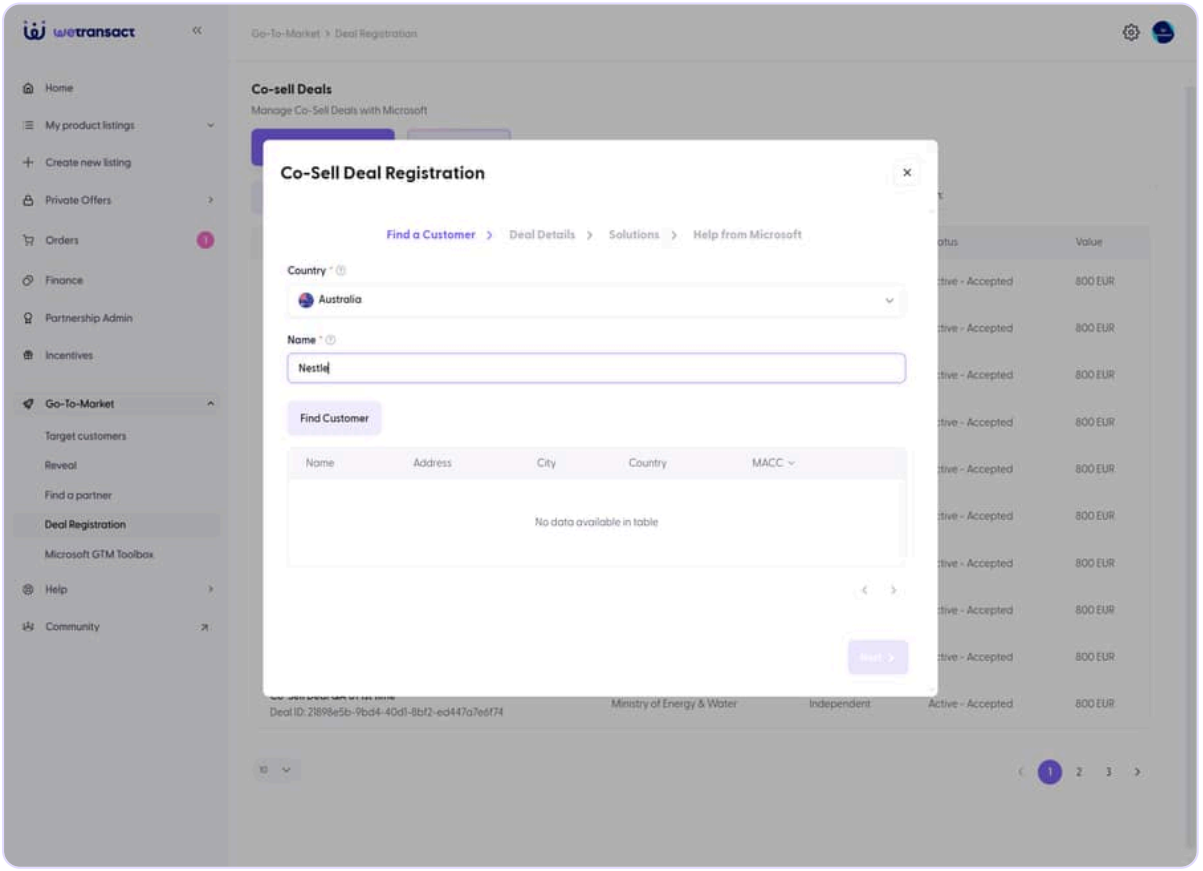

A pop-up window will open where you can enter the deal's details.

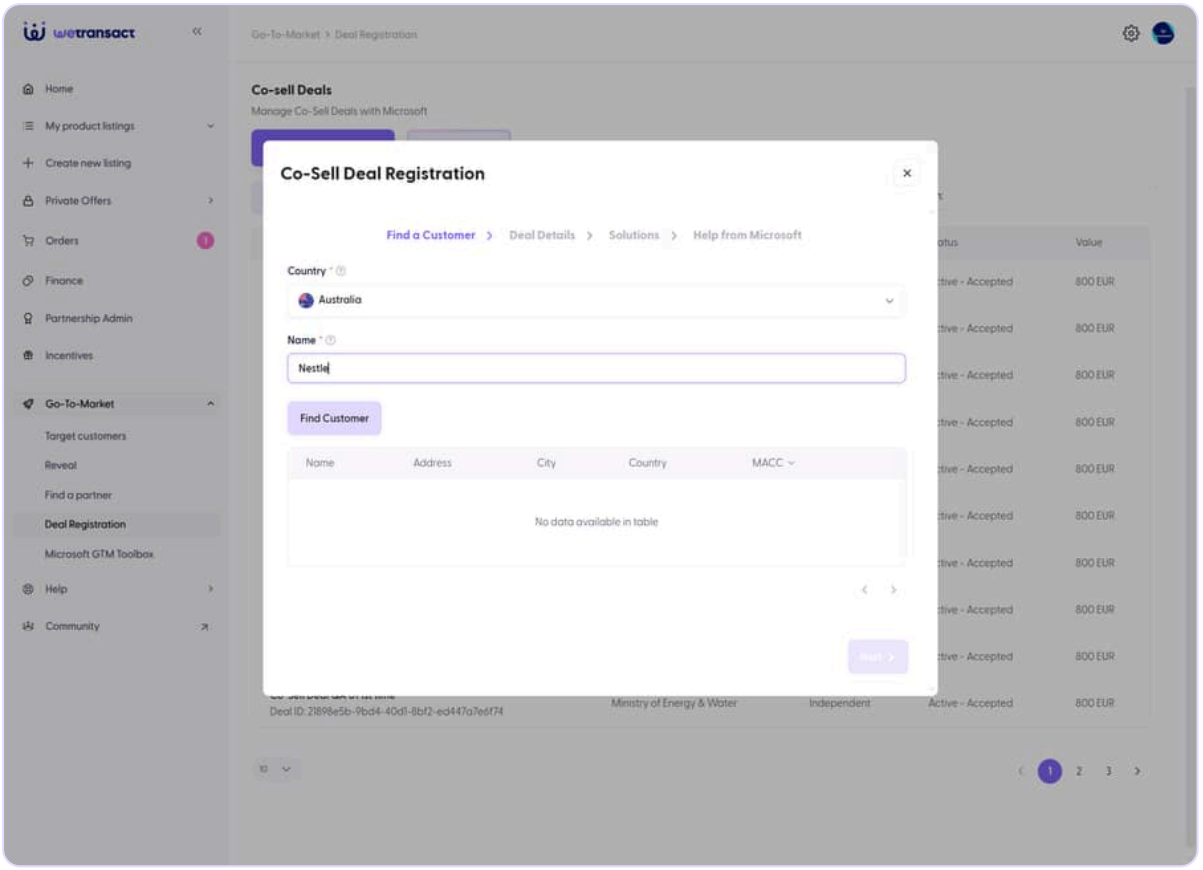

🟣 Type in or select the country of the Customer

🟣 Type the customer's "Company Name"

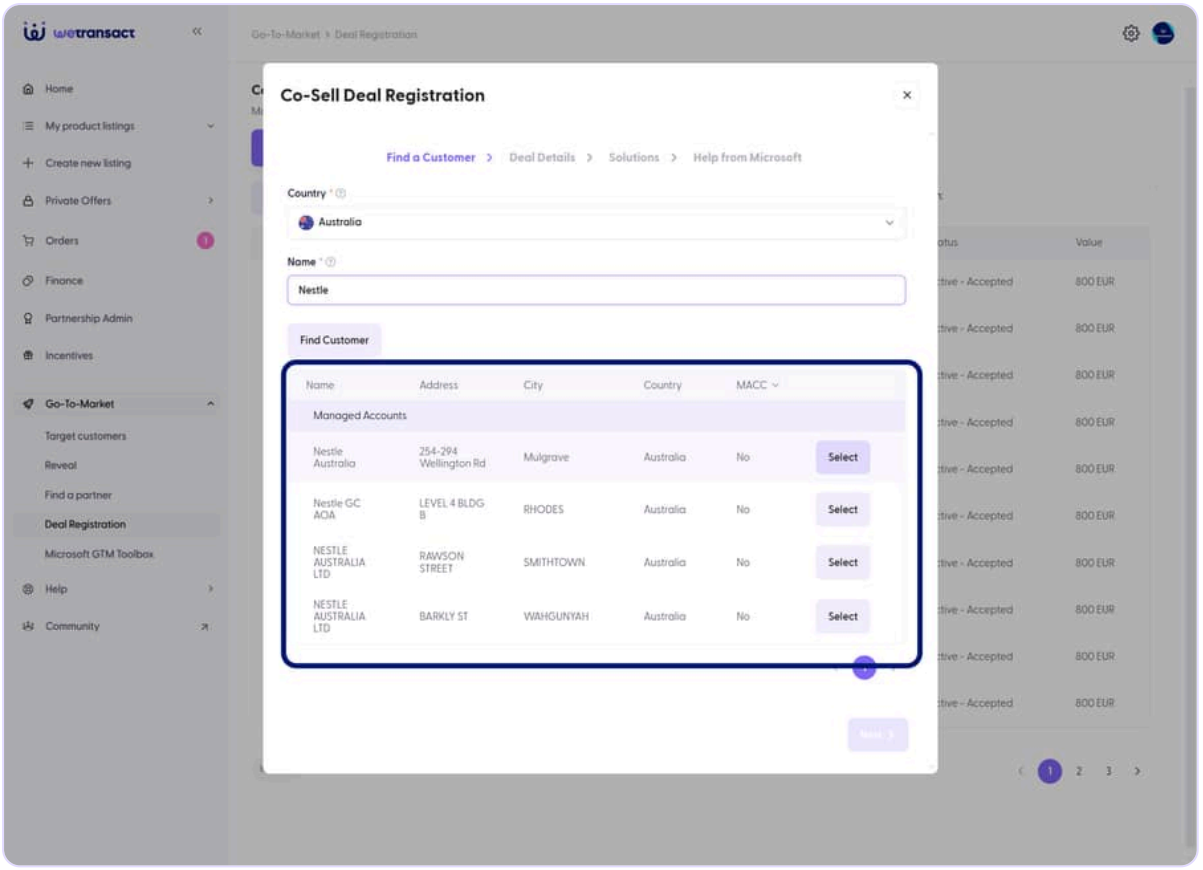

🟣 Click on Find Customer

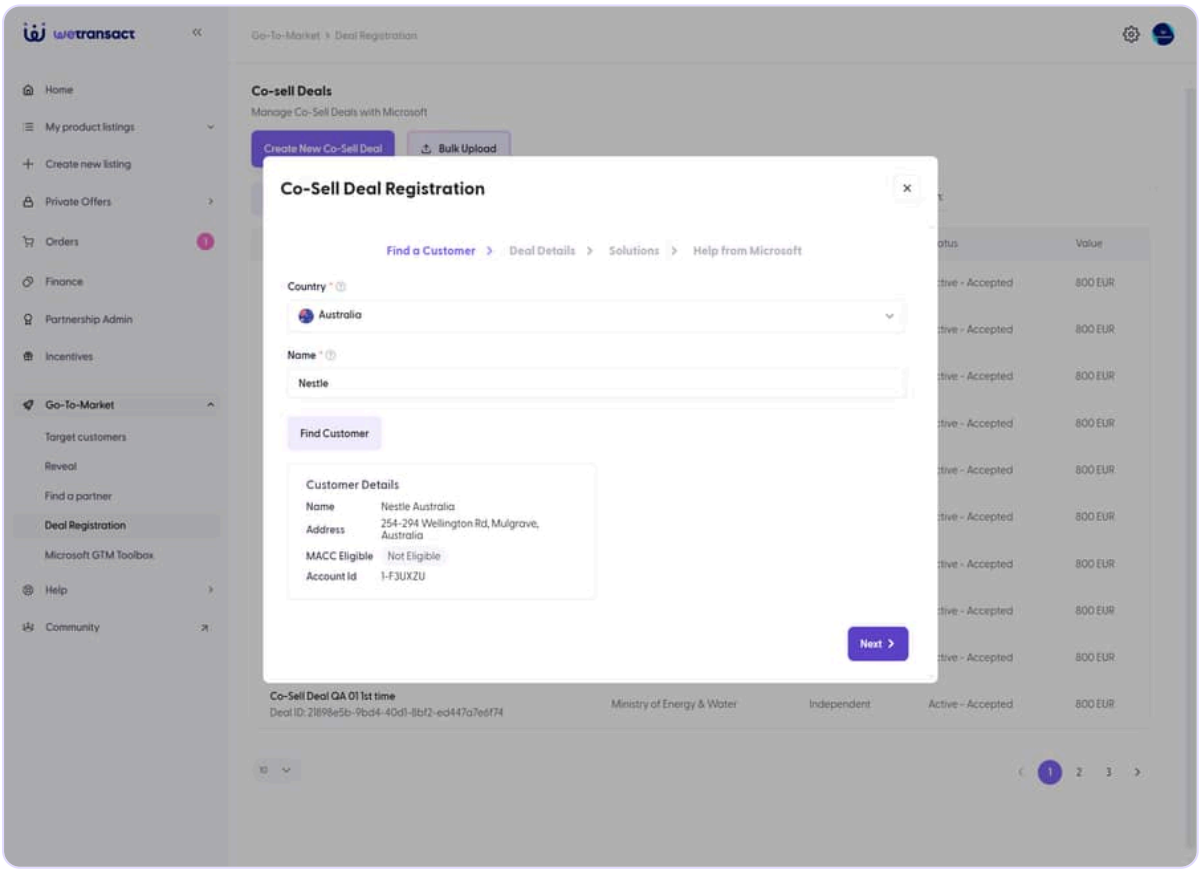

🟣 Select the Company

This page will show you a list of companies, their specific city, MACC eligibility, and whether they are managed or unmanaged accounts.

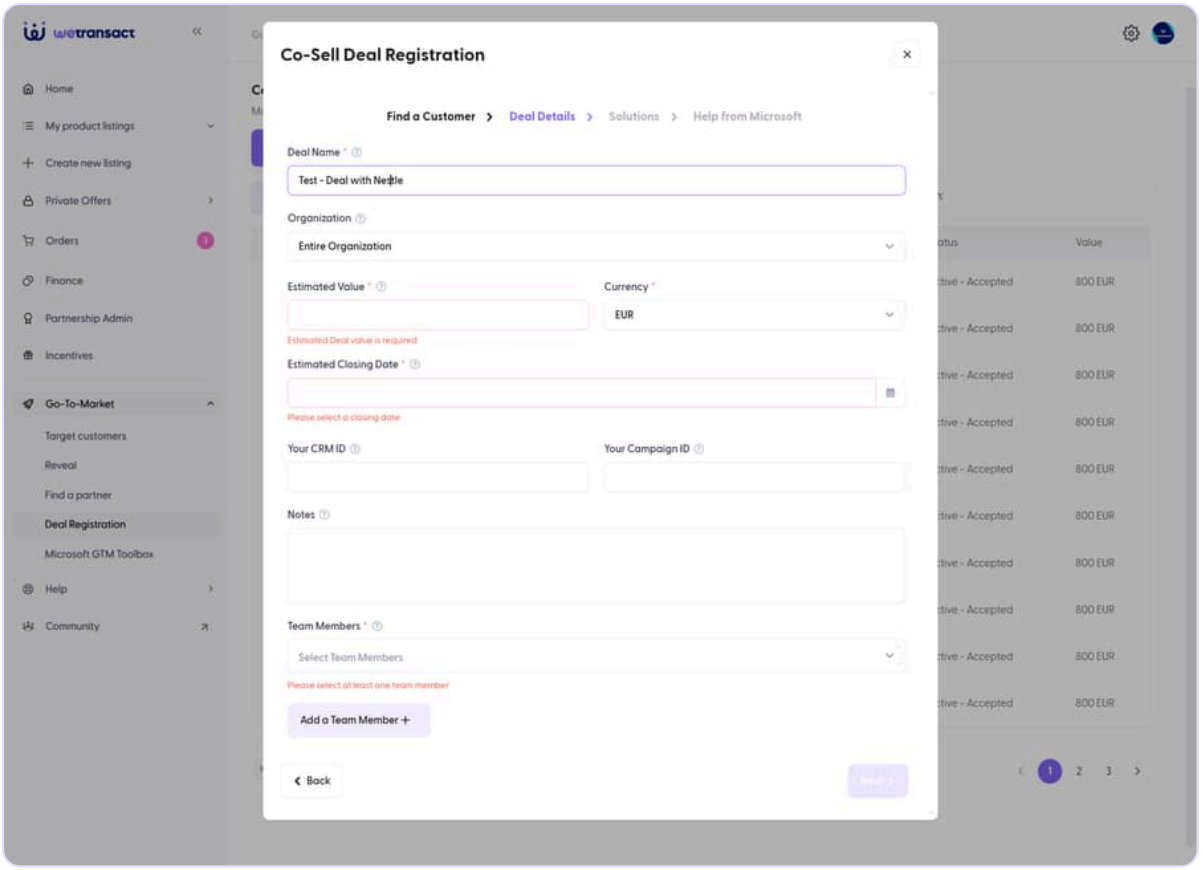

From the list, choose the company you are creating a deal with by clicking the "**select**" button

🟣 Click on Next

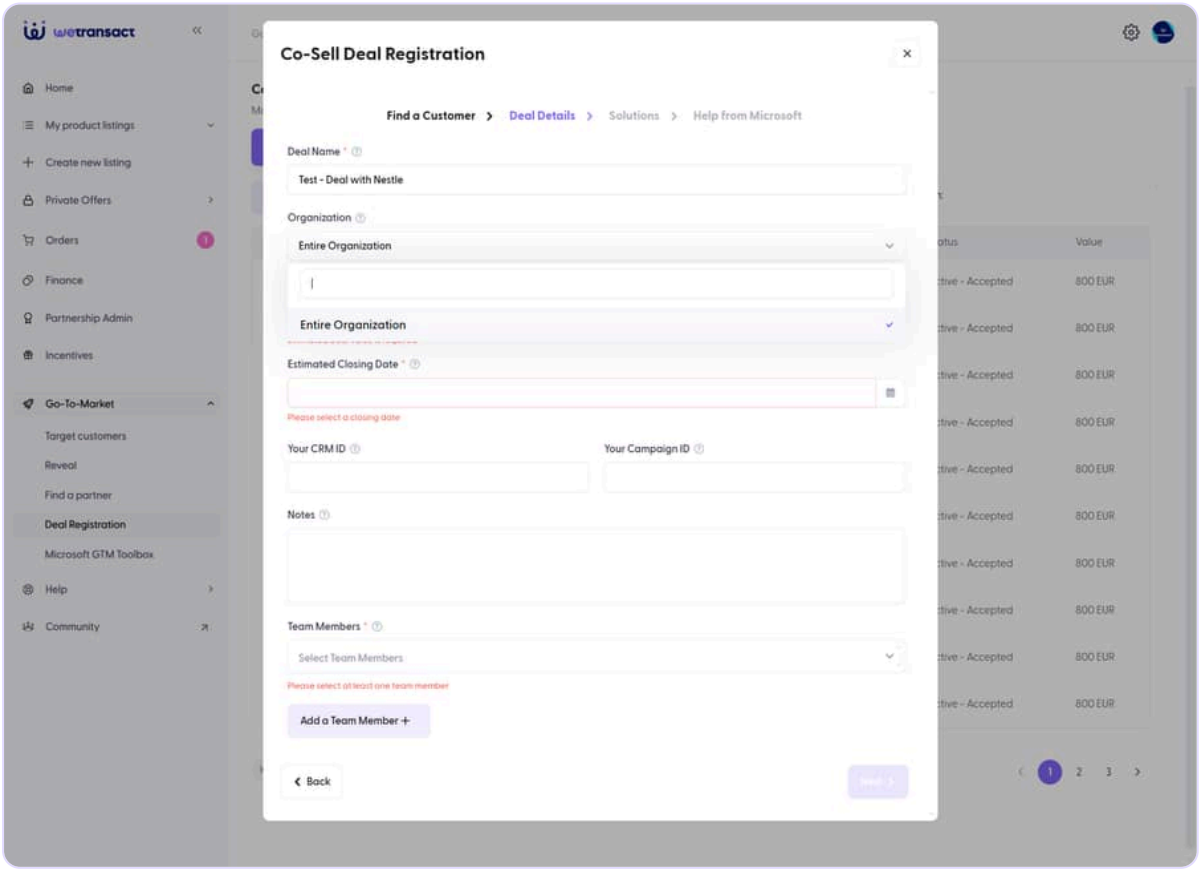

🟣 Type in the Deal's name

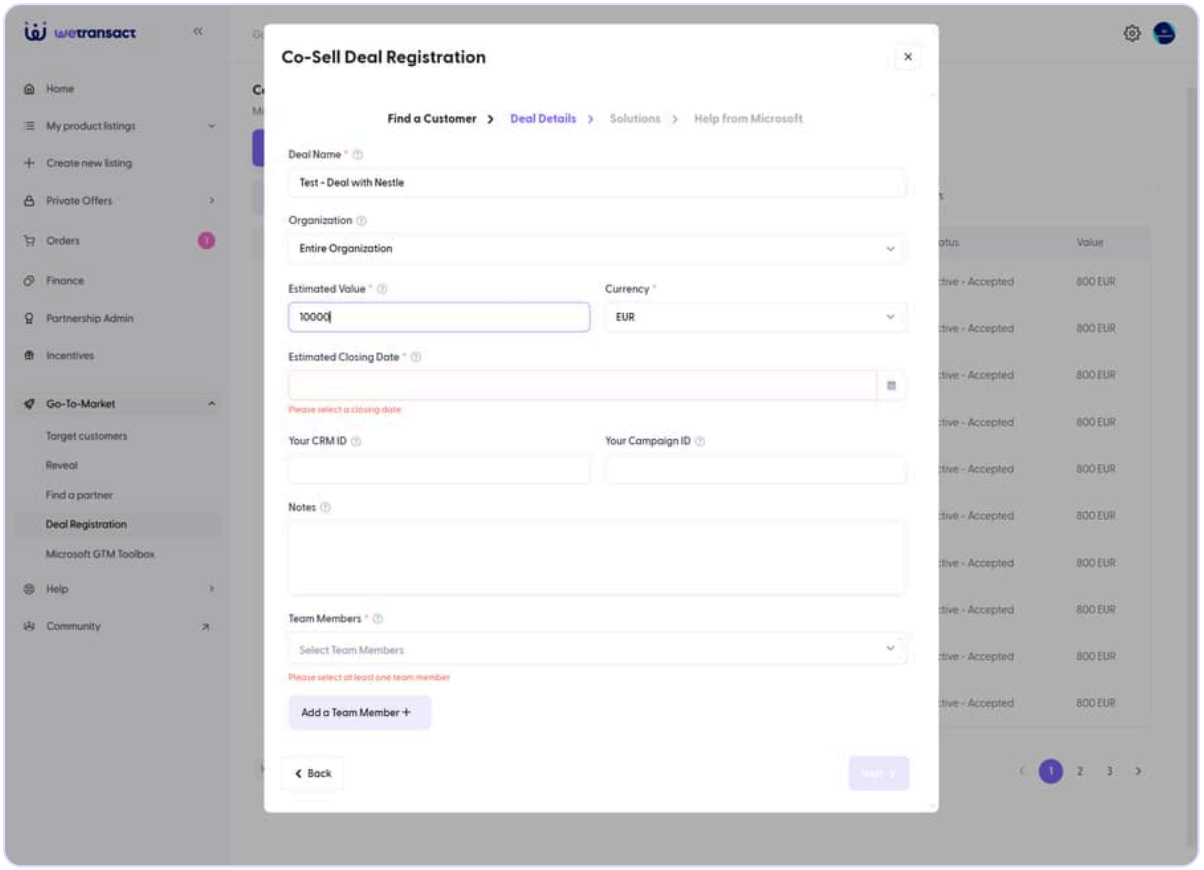

🟣 Click on Organization

If your company have different Publisher IDs, it will show you different Publisher Names or the Publisher Name which you have Referral Admin Permissions; if this is not in place, the only option will be"Entire Organization".
