

Guide your customer when they have not completed the order.

docs.wetransact.io/guide-your-customer-when-they-have-not-completed-the-order

Customers often miss a critical final step: once they put the order in, they forget to click on "Configure Account Now" which means the order stays incomplete.

Client needs to follow the steps below:

1. Sign in to Azure portal
2. Search 'SAAS'
3. Search the subscription Name
4. Click on Configure Account button and complete the steps like Landing page and see the confirmation page

The screenshot shows the Microsoft Azure portal interface. At the top, there's a search bar and navigation icons. The main heading is 'Subscription progress'. Below it, a green checkmark icon is followed by the text 'Thank you for your order. Configure the SaaS service to complete the purchase'. A table lists subscription details: SaaS resource name (ShowingPurchaseFlow), Purchase start time (Wednesday, February 22, 2023 at 3:57:23 PM), and Offer & plan details (WeTransact Test Offer - Standard - 1-year subscription). A 'Next steps' section is titled 'Configure SaaS account'. It contains a warning icon and text: 'To complete the purchase, configure your SaaS account on the publisher's website. We've sent you an email confirmation with instructions on configuring this SaaS account.' Below this is a prominent 'Configure account now' button. To the right, a 'Useful links' box contains three links: 'View your SaaS subscription', 'View all your SaaS subscriptions', and 'View this product in Marketplace'. At the bottom, an 'Important to know' section contains three bullet points: 'Billing will start after your account is configured on the publisher's website.', 'If no action is taken within 30 days, this SaaS subscription will be automatically deleted.', and 'Your SaaS subscription will appear on the SaaS page in the Azure portal. To access it easily, save it to your favorite services or pin it to the dashboard.'
