

Marketing – the listing collateral

You own the content of the Marketplace listing – the storefront your buyers will see. Gather the items below before call 2 – the platform walkthrough – and the listing publishes the same week.

Collateral checklist

- ☐ **Product name**
- ☐ **Logo** – 216 × 216 px, PNG or SVG.
- ☐ **Screenshots** – up to 5, at least 1280 × 720 px.
- ☐ **Tagline** – max 100 characters.
- ☐ **Product description** – max 5,000 characters.
- ☐ **3 long-tail search keywords** – how buyers would search for you.
- ☐ **Supporting one-pager** – a PDF explaining the product.
- ☐ **Video URL** – optional; Vimeo or YouTube.
- ☐ **Privacy policy URL**
- ☐ **Support URL**
- ☐ **Terms & conditions** – either: use the [Microsoft Standard Contract](#) » or your existing T&C (provide the URL).
- ☐ **Pricing plan(s)** – at least one, agreed with your sales lead.
- ☐ **Azure subscription ID** – [how to find it](#) »

2

Your call: platform walkthrough (30–45 min) with your WeTransact CSM – we build the listing together from this collateral, walk the publisher portal, and submit for publication. AI-assisted listing generation does the heavy lifting; you approve the result.

WHY IT'S WORTH DOING WELL

The listing is a search result inside Microsoft Marketplace – strong keywords, a clear tagline and real screenshots decide whether buyers click. We'll review everything against Marketplace best practices in the session.

WHAT YOUR CSM DOES

Builds the listing from your collateral with AI-assisted generation, walks you through the publisher portal, submits the listing for certification and monitors it until it's live – you review and approve.
