

Account Verification Email Not Received by Primary Contact

docs.wetransact.io/account-verification-email-not-received-by-primary-contact

During the legal information verification step in Partner Center, the primary contact may not receive the verification email. If left unresolved, this can become a significant blocker to completing account setup.

To fix this follow these steps:

1. Click on outlook settings in web browser on in a app.

2. Click on junk and in middle of screen you will see, safe senders

3. Click on Add Safe sender and add both emails and press ok . Check the emails below.

maccount@microsoft.com

token@microsoft.onmicrosoft.com

This should fix the issue and primary contact will get email from Microsoft for email verification.
