

Configuring Cross-Tenant Access for WeTransact in Microsoft Entra

docs.wetransact.io/configuring-cross-tenant-access-for-wetransact-in-microsoft-entra

Click on Expand External Identities section

Click on Cross-tenant access settings

Click on Add organization

The screenshot shows the Microsoft Entra admin center interface. The left sidebar contains navigation links for Home, What's new, Diagnose & solve problems, Favorites, Identity, Users, Groups, Devices, Applications, Rules to admin, Protection, Identity Governance, External Identities, and Learn & support. The main content area is titled 'External Identities | Cross-tenant access settings'. It features a search bar, a 'Get feedback?' link, and tabs for 'Organizational settings', 'Default settings', and 'Microsoft cloud settings'. The 'Organizational settings' tab is active, showing instructions on how to use cross-tenant access settings to manage collaboration with external Microsoft Entra tenants. A table lists 2 organizations found, with columns for Name, Inbound access, Outbound access, and Tenant restrictions. The 'Add organization' button is located at the top left of the main content area.

Type "wetransact.io"

The screenshot shows the Microsoft Entra admin center interface with the 'Add organization' dialog box open. The dialog box is titled 'Add organization' and contains the text 'Add an external Microsoft Entra tenant by typing one of its domain names or tenant ID if from another Microsoft cloud.' The search field in the dialog box contains the text 'wetransact.io'. The background content is the same as the previous screenshot, but the 'Add organization' button is no longer visible as the dialog box is open.

Click on Add

The screenshot shows the Microsoft Entra admin center interface. The left sidebar contains navigation links for Home, What's new, Diagnose & solve problems, Favorites, Identity, Overview, Users, Groups, Devices, Applications, Rules & admin, Protection, Identity Governance, External Identities, Overview, All identity providers, User flows, Custom authentication extensions, Cross-tenant access settings, External collaboration settings, Cross-tenant synchronization, Show more, Protection, Identity Governance, and Learn & support. The main content area is titled 'External Identities | Cross-tenant access settings' and includes tabs for Overview, Cross-tenant access settings, Organizational settings, Default settings, and Microsoft cloud settings. The 'Organizational settings' tab is active, showing instructions on how to use cross-tenant access settings to manage collaboration with external Microsoft Entra tenants. A search bar is present, and a table lists organizations found. On the right, the 'Add organization' dialog box is open, prompting the user to add an external Microsoft Entra tenant by typing a domain name or tenant ID. The dialog shows the name 'WeTransact' and a tenant ID. At the bottom of the dialog are 'Add' and 'Discard' buttons.

Add organization

Cross-tenant settings

Add an external Microsoft Entra tenant by typing one of its domain names or tenant ID if from another Microsoft cloud.

Name
WeTransact

Tenant ID
c13754d2-13ba-4822-af81-8b4de13b6176

Add Discard

Click on Inherited from default

This screenshot is similar to the previous one, showing the Microsoft Entra admin center interface. The 'Add organization' dialog box is open, and the 'Inherited from default' option is selected for the inbound access setting. The dialog shows the name 'WeTransact' and a tenant ID. The 'Add' and 'Discard' buttons are at the bottom.

Add organization

Cross-tenant settings

Add an external Microsoft Entra tenant by typing one of its domain names or tenant ID if from another Microsoft cloud.

Name
WeTransact

Tenant ID
c13754d2-13ba-4822-af81-8b4de13b6176

☒ Inherited from default

☐ Inherited from multi-tenant organization

Add Discard

Select Customize settings

Select Allow access

Click on Applications

Select Allow access
