

How do I use the report function for custom dimensions?

docs.wetransact.io/how-do-i-use-the-report-function-for-custom-dimensions

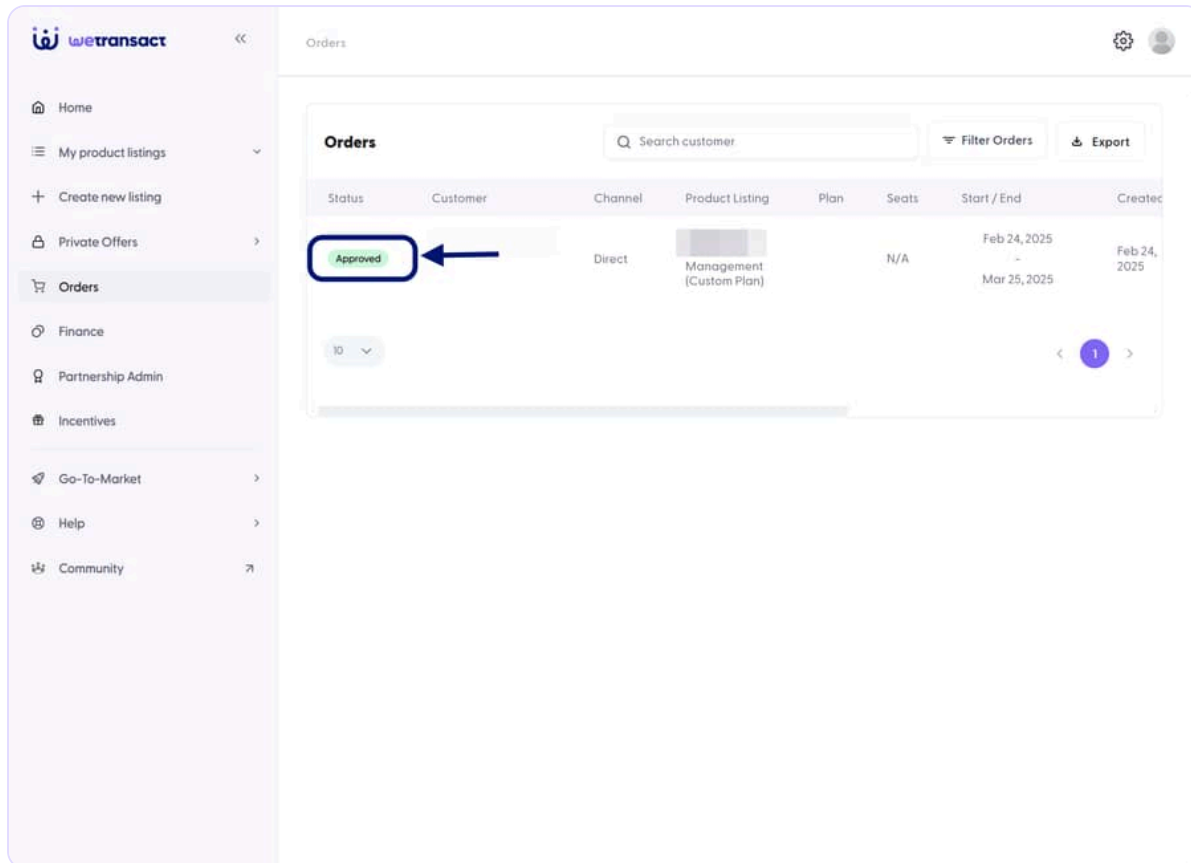

Using a custom dimension in your Pricing Plans requires reporting usage. This guide outlines a step-by-step process for billing customers based on their usage.

Click on Orders

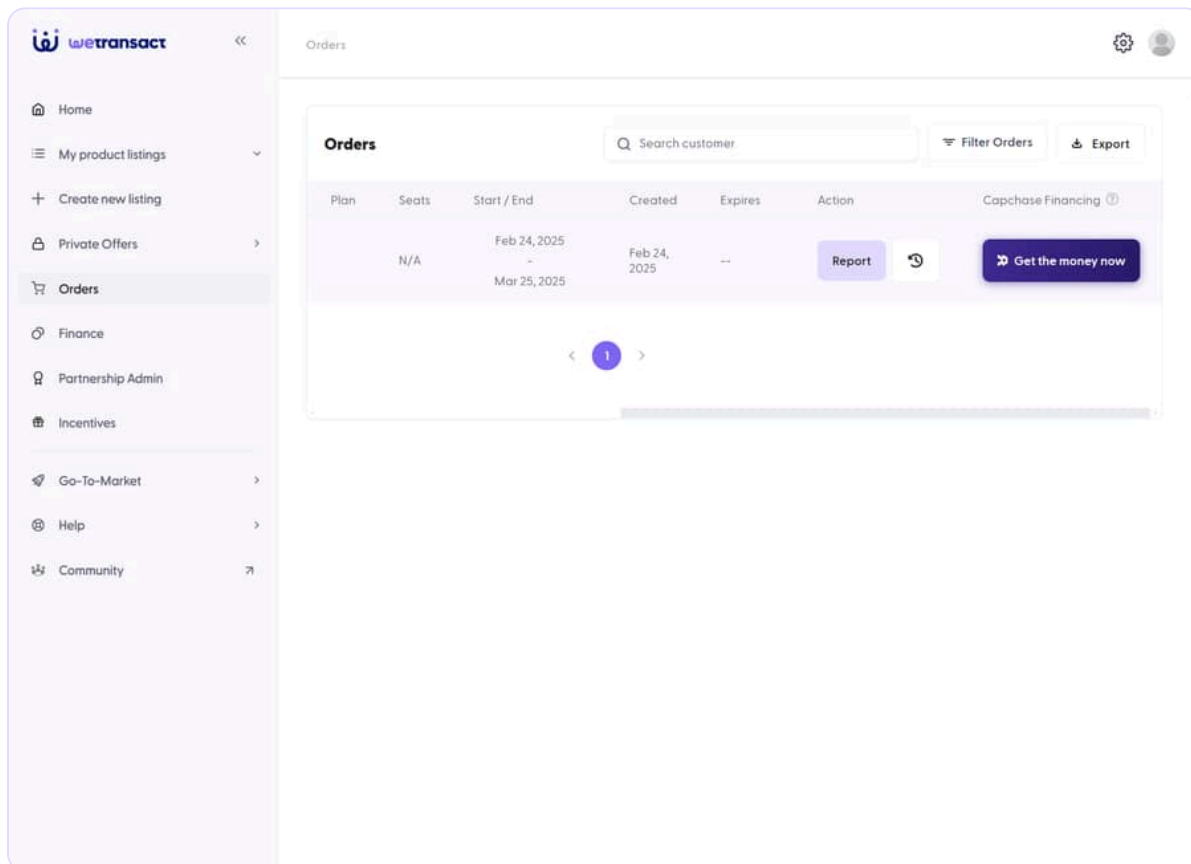

Check if the Order is Approved

The **Report** button will only be available once an order is Approved. Orders can be approved manually or set to auto-approve. For more details, refer to the guide: [How to Activate/Accept Order](#).

● Click on Report

Scroll to the far right or locate the Action column, then click on **Report**.

● Report Usage Slide Modal

After clicking the **Report** button, a slide modal will appear, allowing you to enter quantities for your dimensions.

Based on the input in your Pricing Plan's Custom Dimension:

- If a price is specified, it will be automatically calculated in the Total Charges column.
- If no price is specified, manually enter a price in the Total Charges column. **[For confirmation]**

Report Usage for Subscription

Use the details below to report usage of the dimension in this plan.
Only published dimensions can be used to reporting.

Report Usage History

DIMENSIONS	QUANTITY	TOTAL CHARGES	ACTION
Full License	1	1.00	Set Recurrence
License	0	0.00	Set Recurrence

TOTAL: 1.00 AUD

Cancel Charge Customer

● Set Recurrence

This feature is for setting a notification when reporting should be done. If it is a one-time fee, proceed to step **Review Quantities**

Charge Customer

Select the number of times

[FOR CONFIRMATION]

This function allows you to automate the times (quantity, units, licenses or any other naming convention used) at which the custom dimension is charged or billed to the customer based on the selected interval. In some cases, where the custom dimension serves as a unit, you can add or adjust the quantity accordingly.

Select the Frequency

If the custom dimension is a one-time fee, select Annually.

If the custom dimension is a monthly fee, select Monthly.

The screenshot shows the 'Customize recurring charges' modal in the Wetransact application. The modal is titled 'Customize recurring charges' and has a close button (X) in the top right corner. It is divided into two main sections: 'Repeats' and 'Who should be notified?'.

In the 'Repeats' section, there are two rows of configuration. The first row is for 'Full License' with a quantity of 1. The 'Repeats' dropdown is set to 'Annually'. The second row is for 'Every' with a quantity of 1, and the 'Repeats' dropdown is set to 'Monthly'. The 'on day' is set to 1, and the 'every' interval is set to 1 year(s). Below this, there is a section for 'On the' with a dropdown set to 'First', a day dropdown set to 'Sunday', a month dropdown set to 'January', and an 'every' interval set to 1 year(s).

The 'Starting on' date is set to 28 February 2025, and the 'Ending on' date is set to 28 February 2026. A 'Validate' button is located to the right of the 'Ending on' date.

The 'Who should be notified?' section contains a text input field for 'Enter an email address' and a button to '+ Add another notification contact'. At the bottom right of the modal are 'Cancel' and 'Submit' buttons.
