

How do you assign the billing administrator role in Microsoft Azure Portal?

docs.wetransact.io/how-do-you-assign-the-billing-administrator-role-in-microsoft-azure-portal

If you want to assign the Billing Administrator role, you can give a user permissions to manage billing, payments, and invoices in your Azure account. Please follow the steps below:

● Sign in to Azure portal and click on Users

The screenshot shows the Microsoft Azure portal interface for managing users. The top navigation bar includes the Microsoft Azure logo, a search bar, and the Copilot icon. The main header shows 'Home' and 'Users' with a dropdown menu. The left sidebar lists various user management tasks: All users, Audit logs, Sign-in logs, Diagnose and solve problems, Deleted users, Password reset, User settings, Bulk operation results, and New support request. The main content area displays a list of 169 users found. The table has three columns: 'Display name', 'User principal name', and 'User type'. The 'User type' column shows roles such as Member, Guest, and Contributor. A search bar and an 'Add filter' button are located above the table. A notification banner at the top of the main content area states 'Azure Active Directory is now Microsoft Entra ID'.

Type your name or the name of the person you want to assign this role to.
