

How to find your Tenant ID in Azure portal?

docs.wetransact.io/how-to-find-your-tenant-id-in-azure-portal

Finding your Tenant ID in Azure gives you the unique directory identifier needed to create a private plan, ensuring the offer is correctly assigned to the intended customer's Azure Active Directory tenant. please follow the steps below:

- **Sign in to Azure Portal (<https://portal.azure.com>).**
- **On the top search bar, search 'Tenant or Tenant Properties'.**

- **Click on Tenant properties.**

Scroll down to the "Tenant ID" field. Here's the tenant you are looking for. You can copy it to the clipboard
