

Step 7 – Creating your first Microsoft Marketplace Listing, As Easy as 1-2-3 and Go Live.

docs.wetransact.io/step-7-creating-your-first-microsoft-marketplace-listing-as-easy-as-1-2-3-and-go-live

WeTransact simplifies Microsoft Marketplace listing creation into three clear, guided steps – helping you go live faster and with confidence.

● Click on Create and 'Create Product Listing'

The screenshot shows the WeTransact dashboard interface. On the left sidebar, the 'Create' menu is expanded, and 'Create Product Listing' is highlighted with a red box and an arrow. The main dashboard area displays a welcome message for 'admin@wetransact.io' and three key performance indicators: 'Total Orders' (47), 'Total Billed Revenue' (1,308,646 USD), and 'Total Payouts' (535,845 USD). At the bottom, a 'Getting Started' section shows a progress bar at 80% and a task 'Create my first product listing' with a 'Build' button.

Dashboard Summary:

- Welcome, admin@wetransact.io**
- Total Orders:** 47
- Total Billed Revenue:** 1,308,646 USD
- Total Payouts:** 535,845 USD
- Getting Started:** 80% progress
- Task:** Create my first product listing (Build button)

● Click on Octavia AI, Do Your Magic ✨

Create a product listing

Choose your input method

☐ I'll Type It In

☒ Octavia AI, Do Your Magic ✨

Type your product details manually.

Product Name *

Type here your product name

Product Type *

☒ **SaaS (Software as a Service)**
It's a software application hosted and maintained by a service provider and accessed over the internet

☐ **Managed Application**
It's an application that is deployed in your Azure environment and managed by a third-party provider

Create

80%

✓ **Create my first product listing**

It is a page providing information about your software. This serves as a presentation which includes product name, logo, description, media files, pricing and legal information.

● Type "your website name" and select type of listing SaaS or Managed Application

✓ **Create my first product listing**

It is a page providing information about your software. This serves as a presentation which includes product name, logo, description, media files, pricing and legal information.

● Click on Generate with Octavia AI

The screenshot shows the Wetransact dashboard with a modal titled "Create a product listing". The modal has a sidebar with a close button (X). The main content area is divided into sections. The first section, "Choose your input method", has two buttons: "I'll Type It In" and "Octavia AI, Do Your Magic". The second section, "Let AI generate product details for you using your company website.", includes a sub-section "Your Product URL" with a text input field containing "https://wetransact.io". Below this is a "Product Type" section with two radio button options: "SaaS (Software as a Service)" and "Managed Application". The "SaaS" option is selected. A blue arrow points to the "Managed Application" option. At the bottom of the modal is a large pink button labeled "Generate with Octavia AI".

 Select I want to sell this product everywhere Microsoft handles tax for me - Public Plan... and click Next

 **Add Pricing Options** 

Basic information > **Business outcome** > Pricing modal

☒ **I want to sell this product everywhere Microsoft handles tax for me - Public Plan** Default

Your offer will be displayed to this [list of countries](#). This is perfect for publishers who do not want to handle tax admin.

☐ **I want to sell everywhere - Public Plan** 

You can sell in 144 countries, but Microsoft only handles taxes in **68 of them**. For the remaining countries, you will be responsible for managing taxes.

☐ **I want to sell to a specific geography - Public Plan**

Select the countries where you want to sell. Before proceeding, check if Microsoft manages taxes in [those countries](#)

☐ **I want to sell to a specific customer using private pricing - Private Plan** 

(This option is greyed out for now. It will be available once your offer is published.)
This is a straightforward route to do a custom and private transaction.

 **Next >**

● Select pricing model, Flat rate or Per user accordingly, add subscription length

If you have multiple Subscription length, please click on "Add Alternative Billing Options" to add more.

The screenshot shows the 'Add Pricing Options' form in the Wetransact dashboard. The left sidebar contains navigation links: Create, Home, Marketplace, Product Listings, Aviato, AquaGenie, BlueWhiteBytes, test, View all listings, Private Offers, Orders, Finance, Partnership Admin, Incentives, Go-To-Market, and Bonus. The main form has a title 'Add Pricing Options' and a close button. It features a breadcrumb trail: Basic information > Business outcome > Pricing modal. The 'Select pricing model' dropdown is set to 'Flat Rate'. There is a checkbox for 'Enable Free trial for this plan for 1 month'. The 'Subscription length' dropdown is set to 'Month', and the 'Billing interval' dropdown is set to 'One-time'. The 'Currency' dropdown is set to 'Select...', and the 'Price' field contains 'Enter price: i.e. 9.99'. Below these fields is a section for 'Add Alternative Billing Options' and 'Add Multi Currency'. At the bottom, there is a 'Back' button and an 'Add Pricing Plan' button.

[Add Alternative Billing Options](#)

[Add Multi Currency](#)

☐ **Enable custom dimensions**
Add billing alternatives for your flat rate by adding custom dimensions and defining the price per unit.

[Back](#) [Add Pricing Plan](#)

● Add \$ 1 dummy pricing and select currency and click on Add pricing

Microsoft Marketplace requires at least one **public pricing plan above \$0** for a listing to be transactable. A **dummy pricing plan** meets this requirement while allowing you to keep actual pricing private and handle commercial discussions off-platform.

Add Pricing Plan

● Click on Publication Details, choose the option that best describes your product's hosting.

If it's "Fully built on Azure", follow [this guide](#) to locate the subscription and paste it here.

Publication Details

Last details before take off

Subscription ID

Microsoft now requires accurate hosting details. Please choose the option that best describes your product's hosting. You are responsible for the accuracy of this information.

☐ Fully built on Azure

Enter the subscription ID for the Azure tenant that runs your product. If you use more than one subscription, add each ID. If you're not sure where to find it, [follow this guide](#).

☐ Partially built on Azure

Your product runs on Azure and also uses other infrastructure (e.g., customer's Azure, other cloud, or on-prem).

☐ Not built on Azure

This choice can affect eligibility. **Azure IP Co-sell** requires Azure-based solutions. You may keep Co-sell Ready if you meet Microsoft's non-IP criteria, but benefits linked to Azure consumption may not apply.

NOTE: WeTransact submits your answers to Microsoft Partner Center on your behalf. WeTransact does not verify hosting claims and cannot guarantee Microsoft's decisions or eligibility outcomes.

Save

● Click on Add Terms and Conditions

The screenshot shows the WeTransact dashboard. On the left is a sidebar with navigation links: Create, Home, Marketplace, Product Listings, Private Offers, Orders, Finance, Partnership Admin, Incentives, Go-To-Market, and Bonus. The main area displays the 'Marketplace Go-To-Market Acceleration Platform' listing. It includes a product description, media, pricing plan, publication details, and a section for 'Terms and Conditions'. A modal titled 'Choosing Terms and Conditions for Your Listing' is open on the right, providing tips and a link to 'Read Here'.

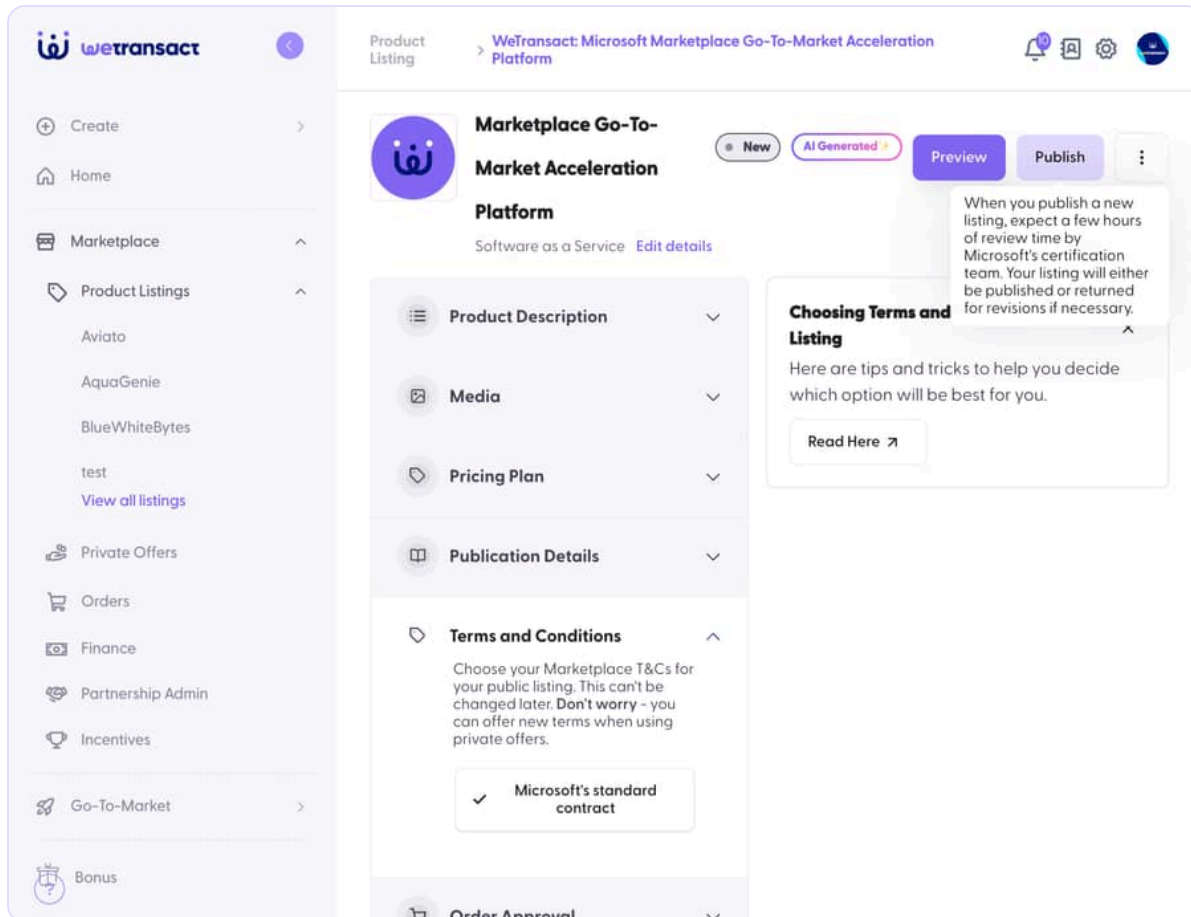

● Select I want to use Microsoft's standard contract.... you can also use your existing terms

The screenshot shows the 'Add Terms & Conditions' modal. It contains three radio button options:

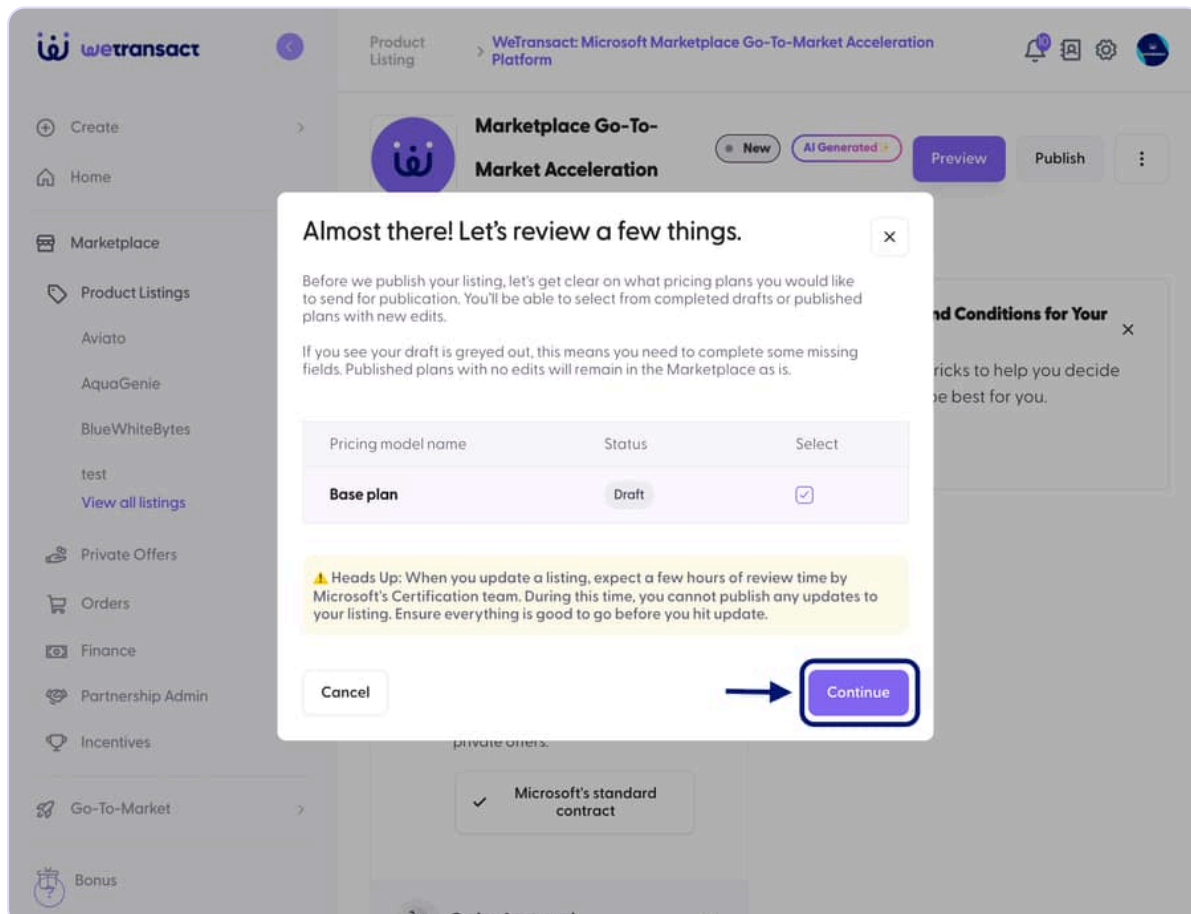

- ☐ I want to create my contract with **Cloud Contracts 365**. **Most Protected**
This option offers expert legal solutions for Microsoft Partners, making Cloud Contracts 365 the easiest, most reliable choice for hassle-free contracts.
- ☐ I want to use my existing terms and conditions.
Upload your own terms and conditions. Perfect for publishers who have their own set of agreements that they want to include.
- ☒ I want to use Microsoft's standard contract.
This option is the most efficient and widely used, as it allows publishers to quickly publish on the marketplace with Microsoft pre-written terms and conditions.

A 'Next' button is located at the bottom right of the modal.

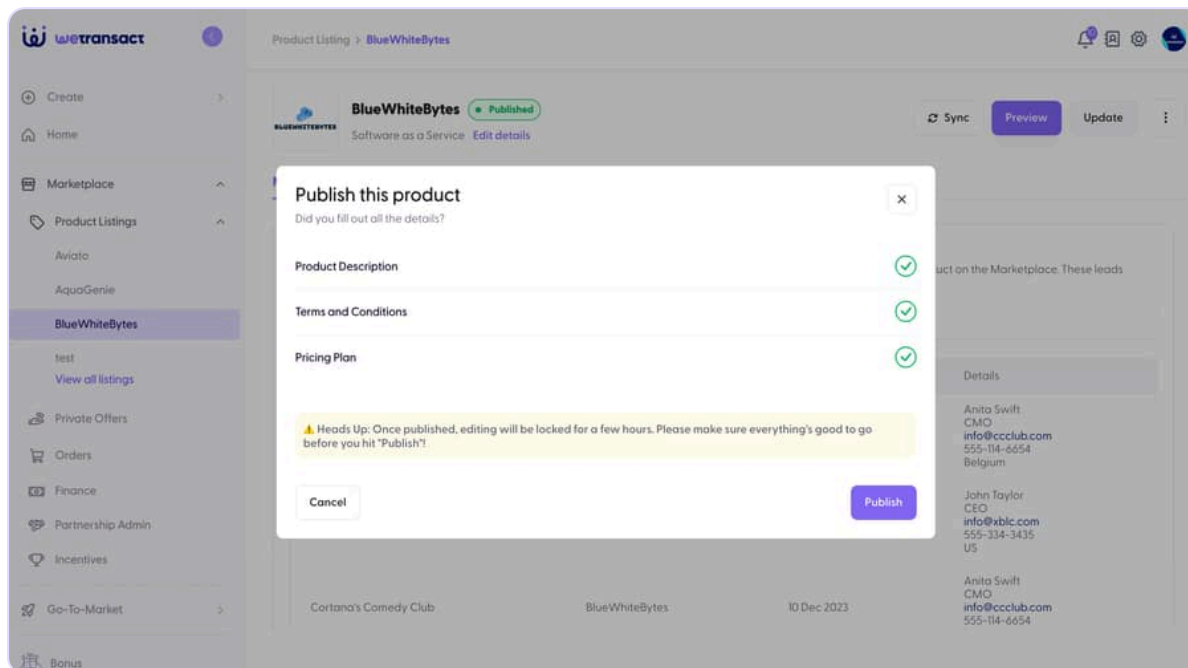

Click on Publish

Select the pricing plan and click on Continue.

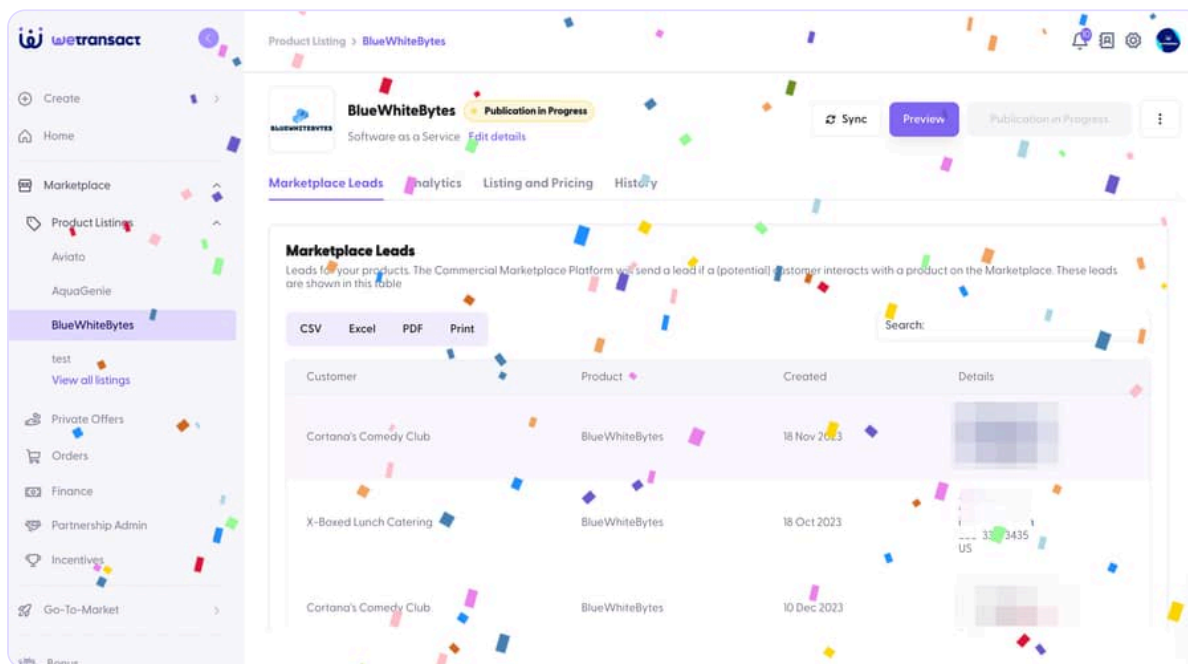

Click on Publish

A little celebration

and your listing will go under publication and less than 24 hours you will have a live transactable offer on Azure marketplace like Magic 🚀
