

Create a Support Ticket Outside Partner center

docs.wetransact.io/create-a-support-ticket-outside-partner-center

When you are Unable to open a Partner Centre account due to one error or the other, and you also need to create an MSFT support ticket, use this link.

<https://partner.microsoft.com/en-us/support/?stage=3&topicid=2660fd72-0cb0-02ca-a248-e4565cb66371>

Fill in the form with the information and submit

The screenshot shows the Microsoft Partner support request form. At the top, there is a navigation bar with the Microsoft logo and links for Partner, Partnership, Explore, Connect, Resources, Training, Support & Advisory, and Find a partner. Below the navigation bar, the page title is "Create a support request". Underneath, there is a breadcrumb trail: "Enrollment > Enroll > How do I enroll into MAICPP program" followed by a link "Select a different issue". The form is divided into two main sections: "Request info" and "Contact info". The "Request info" section contains two text areas: "Problem summary*" with a character count of 255, and "Problem details*" with a placeholder text "Provide additional information on the issue you encountered". The "Contact info" section contains four text input fields: "First name*", "Last name*", "Phone number*" (with a dropdown arrow), and "Email*". Below these fields is a section for "Additional contacts" with a placeholder text "To include multiple contacts, use a comma to separate each contact".
