

Find your global admin to add an external user on Partner Center.

docs.wetransact.io/find-your-global-admin-to-add-an-external-user-on-partner-center

Finding your Global Admin ensures you can request the necessary permissions to add an external user in Partner Center, enabling them to collaborate on managing offers, customers, and programs. Please check the below steps:

Type "Microsoft Entra ID "

The screenshot shows the Microsoft Azure portal interface. A search bar at the top contains the text "Microosft". Below the search bar, a dropdown menu displays search results for "Services". The results include:

- Microsoft Entra ID
- App Services (Resource type: Microsoft.Web/sites)
- Azure Cosmos DB (Resource type: Microsoft.DocumentDb/databaseAccounts)
- Azure Database for MySQL servers (Resource type: Microsoft.DBforMySQL/servers)
- SQL databases (Resource type: Microsoft.Sql/servers/databases)

The "Microsoft Entra ID" service is highlighted. Below the search results, the "Resources" section is visible, showing a list of resources with columns for Name, Type, and Last Viewed.

Name	Type	Last Viewed
Microsoft Azure Sponsorship	Subscription	a week ago
AnotherTest3	SaaS	4 weeks ago
Isitest	SaaS	4 weeks ago
wetransact.io	DNS zone	a month ago
poligmasas	Resource group	2 months ago
wetx-poligmasasapi	App Service	2 months ago
mona-poligmasasdatanoow	Resource group	2 months ago
Sigilium_WeTransact	SaaS	2 months ago
joausсен	Managed application	3 months ago
madmePlan	App Service plan	3 months ago
wetx-madmeapi	App Service	3 months ago

Click on Roles and administrators

The screenshot shows the Microsoft Azure portal interface. The top navigation bar includes the Microsoft Azure logo, a search bar, and the user profile 'johan.aussenac@wetran...'. The main content area is titled 'WeTransact | Overview' and shows the 'Microsoft Entra ID' overview. The left sidebar contains a navigation menu with options like 'Overview', 'Preview features', 'Diagnose and solve problems', 'Manage', 'Users', 'Groups', 'External Identities', 'Roles and administrators' (highlighted), 'Administrative units', 'Delegated admin partners', 'Enterprise applications', 'Devices', 'App registrations', 'Identity Governance', 'Application proxy', 'Custom security attributes', 'Licenses', 'Cross-tenant synchronization', 'Microsoft Entra Connect', 'Custom domain names', and 'Mobility (MDM and WIP)'. The main content area displays 'Basic information' for the tenant, including Name (WeTransact), Tenant ID (cc399a02-f38a-4820-a991-894e8c59d676), Primary domain (wetransact.io), License (Microsoft Entra ID P1), Users (52), Groups (25), Applications (287), and Devices (18). There is also an 'Alerts' section with a warning about 'Microsoft Entra Connect v1 Retirement'.

Type "Global Administrator"

The screenshot shows the Microsoft Azure portal interface for 'Roles and administrators | All roles'. The top navigation bar is the same as the previous screenshot. The main content area is titled 'Roles and administrators | All roles' and shows the 'Microsoft Entra ID' roles and administrators page. The left sidebar contains a navigation menu with options like 'All roles' (highlighted), 'Protected actions', 'Diagnose and solve problems', 'Activity', 'Access reviews', 'Audit logs', 'Bulk operation results', 'Troubleshooting + Support', and 'New support request'. The main content area displays 'Your Role: Global Administrator and 2 other roles'. Below this, there is a section for 'Administrative roles' with a description: 'Administrative roles are used for granting access for privileged actions in Microsoft Entra ID. We recommend using these built-in roles for delegating access to manage broad application configuration permissions without granting access to manage other parts of Microsoft Entra ID not related to application configuration. Learn more.' There is a search bar with 'Global Administrator' entered and a table with columns: Role, Description, Privileged, Ass..., Type. The table is currently loading.

⚠ There are currently 13 privileged role assignments. It is recommended to not exceed 10.

📘 Your Role: Global Administrator and 2 other roles

Administrative roles

Administrative roles are used for granting access for privileged actions in Microsoft Entra ID. We recommend using these built-in roles for delegating access to manage broad application configuration permissions without granting access to manage other parts of Microsoft Entra ID not related to application configuration.
