

How to Fix a Suspended Subscription?

docs.wetransact.io/how-to-fix-a-suspended-subscription

Fixing a suspended subscription involves addressing the issue that caused the suspension—such as updating payment details or resolving policy violations—so the subscription can be reactivated and services restored. Please follow the steps below:

Log into your Azure Environment

Go to Cost Management + Billing / Click in “Pay Now”

The screenshot shows the Azure Cost Management + Billing interface. A red box highlights a warning message: "Your billing account has a past due balance of EUR 10888.79 for Azure marketplace and reservation invoice G03861233. Please settle the balance now to avoid service disruption. [Pay now](#)". Below this, there is a table of invoices. The table has columns: Invoice ID, Subscription, Invoice date, Billing period, Amount due, Total amount, Type, Status, and Download invoice. The first row shows an invoice for G03861233, which is past due as of 2/6/2024.

Invoice ID	Subscription	Invoice date	Billing period	Amount due	Total amount	Type	Status	Download invoice
G03861233	Pago por uso 5f64c3bf-15b6-4640-b2ca-102	1/1/2024 - 1/31/2024	1/1/2024 - 1/31/2024	€10,888.79	€10,888.79	Azure Marketplace and Reservations	Past due as of 2/6/2024	Download

● If you require an Invoice, find the item and select Invoice ID to visualize and download your invoice.

● If you don't find it, go to the Subscriptions, check one by one to determine which one missing the payment. You should see a message like the one highlighted in red. When you see this, click on "Pay Now".

● Select Payment Method and proceed. If unsuccessful again, please check your bank limits in case you need to raise them.

NOTE: If you don't Pay Microsoft during the grace period they defined for your account, you risk a total service disruption of all your Microsoft products from Office to Azure to anything you have. Please prioritize this action.

Home > Cost Management + Billing | Invoices > [Pago por uso](#)

Pay now

You are making a one-time payment. Your credit or debit card will be charged immediately and the status of the selected invoice will be updated to paid.
