

How to purchase a solution on Azure Marketplace (generic)?

docs.wetransact.io/how-to-purchase-a-solution-on-azure-marketplace-generic

Purchasing the solution involves selecting the desired subscription plan from the Marketplace listing, reviewing the pricing and terms, and completing the checkout through your Azure subscription, after which the solution will be provisioned in your account.

Note: *To complete a purchase, you must use a Microsoft work account (not a personal Microsoft account such as Gmail, yahoo or Hotmail). If you are currently signed in to the Azure portal with a personal account, you need to create a work account before continuing. You can create one here: [Sign Up to buy Microsoft License](#)*

● Create a work account if you don't have one:

Please follow the link mentioned above to sign up to create a work account.

There are three ways to purchase a solution:

1. Through a Private Offer - Here is the [walkthrough](#)
1. Through a Private Plan - Here is the [walkthrough](#)
1. As a Public Plan- Follow the steps below

● Sign in to [Azure portal](#) and search marketplace

● Search the product name in the search box

● On the offer, click the "Plans + Pricing" tab

Look at the different plans WeTransact offers and identify the one that is relevant to you.

● Verify you have selected the right Plan and then click on "Subscribe"

● Select the "Resource Group" into which the "WeTransact" SaaS resource will be deployed

FAQ at this stage:

- **Which Resource Group should I deploy "WeTransact" into?**
- Answer: I would advise creating a new one named "MarketplacePurchases". This is where you'll find all your apps procured through Marketplace.
- **Why did Azure create a 'SaaS resource' if the application isn't running in my Azure account?**
- Answer: The reason Azure creates SaaS resources is to ease transactions with the product. In other words, you'll find all the transaction information about one product by clicking on the SaaS resource. You will also be able to cancel/change or deactivate the renewal of the subscription clicking on that resource.

Select the billing frequency

WeTransact offers the flexibility to pay monthly or annually. Regardless of the billing frequency, this is an annual commitment. 1 year paid upfront is generally 15% less expensive.

● Please deactivate the "recurring billing" if it is your first year with WeTransact. We will change your plan on Year 2.

For Start-Ups you can leave the recurring billing on. There will be no discount changes from one year to the other.
