

# I have added WeTransact, but support/bot can't log in.

docs.wetransact.io/i-have-added-wetransact-but-supportbot-cant-log-in

## Error Message: "Access is blocked by the organization"

It appears there are policies or restrictions in place that are preventing the required action from being completed. These may exist in one of three areas outlined below. Let us guide you through identifying and resolving the issue. Please check below:

### First Check - Is the User activated ? Starting from portal.azure.com

**Browse to the Users tab.** If it doesn't show up on homepage, you alternatively type "Users" on the search bar and navigate there.

The screenshot shows the Microsoft Azure portal interface. At the top, there's a search bar and navigation icons. The 'Azure services' section is visible, with the 'Users' tab selected. Below this, the 'Resources' section is shown, featuring a table of recent resources.

| Name                        | Type           | Last Viewed |
|-----------------------------|----------------|-------------|
| Sigilium_WeTransact         | SaaS           | 2 days ago  |
| wetransact.io               | DNS zone       | 2 days ago  |
| saasac-admin                | App Service    | 3 days ago  |
| saaasaccelerator            | Resource group | 3 days ago  |
| saasac-portal               | App Service    | 3 days ago  |
| Microsoft Azure Sponsorship | Subscription   | 3 days ago  |
| johantesttackle             | SaaS           | a month ago |
| dataikutest                 | SaaS           | a month ago |
| visionairy                  | Resource group | a month ago |
| webx-visionairyfunctions    | Function App   | a month ago |
| teamsapp                    | Resource group | a month ago |

● Check on the "[bot@wetransact.io](mailto:bot@wetransact.io)" and repeat the operation for "[support@wetransact.io](mailto:support@wetransact.io)".

The screenshot shows the Microsoft Azure portal interface for managing users in a Microsoft Entra ID tenant named 'WeTransact'. The 'Users' page is active, displaying a list of 78 users found. The user 'bot@wetransact.io' is highlighted, and its 'User type' is 'Guest', which is circled in blue. The page also shows a search bar, navigation links, and a list of 78 users found.

| Display name      | User principal name      | User type | On-premises sy... | Identities   |
|-------------------|--------------------------|-----------|-------------------|--------------|
| bot@wetransact.io | admin_wtrpa.org#EXT#@... | Guest     | No                | wetransactdo |

🟡 On the overview tab - please make sure the "Account Status" is showing "Enabled" if not click on Edit and enable it.

The screenshot shows the Microsoft Azure portal interface. At the top, the header includes the Microsoft Azure logo, a search bar, and the user's profile (johan.aussenac@wetransact.io). The main content area is titled 'admin@wtrpa.org' and shows the 'Overview' tab selected in the left sidebar. The overview card displays user details: Created date time (Aug 9, 2023, 4:19 PM), User type (Guest), Identities (wetransactdotio.onmicrosoft.com), Group memberships (1), Applications (1), Assigned roles (0), and Assigned licenses (0). Below the overview card is the 'My Feed' section, which contains three items: 'Account status' (Enabled), 'B2B invitation' (Invitation state: PendingAcceptance), and 'B2B collaboration' (Current user is external). The 'Account status' item is highlighted with a red box, and the 'Enabled' status is indicated by a green checkmark.

## Second Check - External Collaboration Settings - navigate to Microsoft Entra Id

## Click on External Identities

## ● Click on External collaboration settings

The screenshot displays the Microsoft Azure portal interface for 'External Identities | External collaboration settings'. The left navigation pane lists various settings, with 'External collaboration settings' currently selected. The main content area is divided into three sections: 'Guest user access', 'Guest invite settings', and 'External user leave settings'. A notification banner at the top indicates that email one-time passcodes for guests have been moved to All Identity Providers. In the 'Guest user access' section, the 'Guest user access restrictions' are set to 'Guest users have limited access to properties and memberships of directory objects'. The 'Guest invite settings' section shows 'Guest invite restrictions' set to 'Anyone in the organization can invite guest users including guests and non-admins (most inclusive)'. The 'External user leave settings' section shows the option to 'Allow external users to remove themselves from your organization (recommended)' is enabled.

## ● Check that Guest users have

either 1. The Same access as members (not recommended)

OR 2. Guest users have limited access to properties and memberships of directory objects.

If not please perform the change

**Documentation**

Microsoft Entra ID offers a range of security features to protect your organization. To learn more, here are some features to start with.

- Microsoft Entra Conditional Access
- Microsoft Entra ID Protection
- Azure Security Center
- Identity Secure Score
- Named locations
- Authentication methods
- Multifactor authentication

**Security guidance**

For a strong security posture, we recommend the following:

- 5 steps to secure your identity infrastructure
- Microsoft Entra Password Guidance
- Microsoft Entra ID Data Security Whitepaper
- How Password Hash Sync (PHS) works

**Deployment guides**

To deploy the above features in your organization, check out [Microsoft Entra ID deployment plans](#).
