

Or—Sync your product listings in one click, and Go Live

docs.wetransact.io/orsync-your-product-listings-in-one-click-and-go-live

If you have existing live solutions in Partner Center, this will help you sync your product listing to WeTransact.

Sign in to Wetransact portal and Go to Settings

You will need to create credentials. Please follow this [guide](#) to create it.

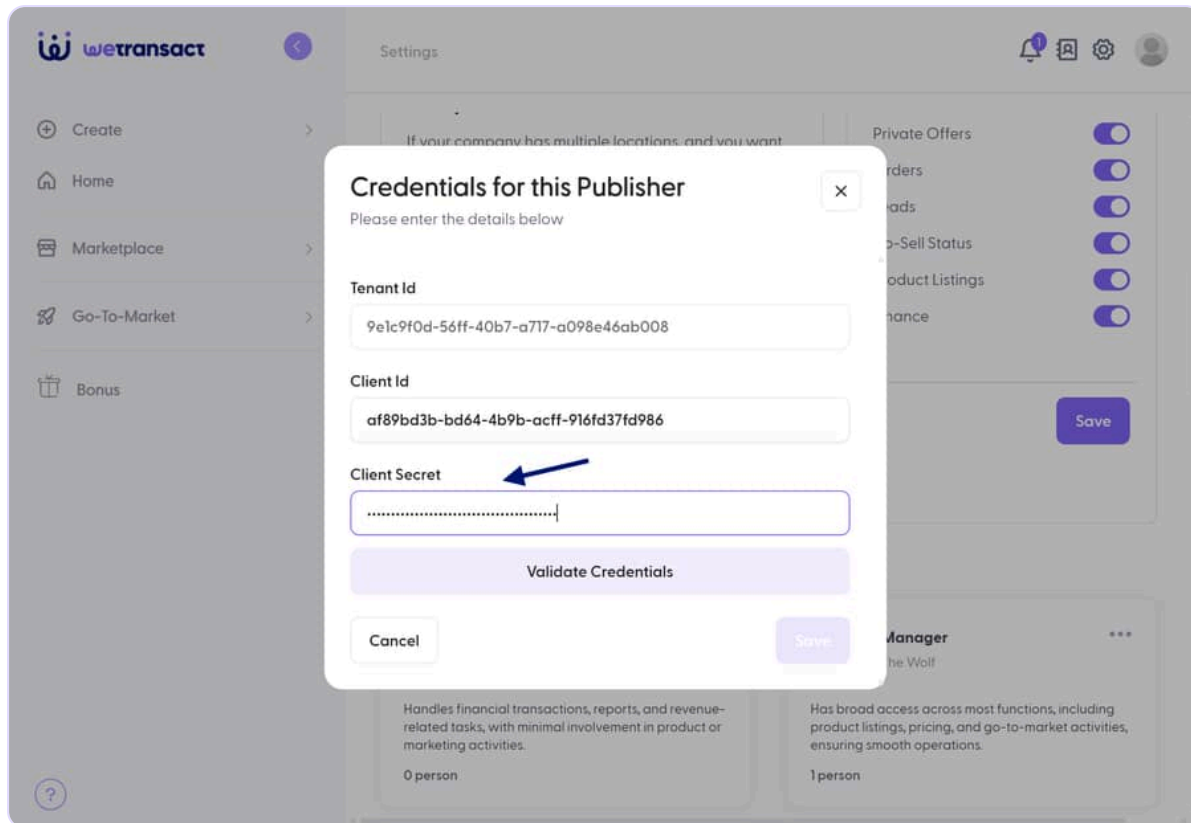

Click on Credentials

The screenshot shows the 'Settings' page in the Wetransact application. On the left is a sidebar with navigation links: Create, Home, Marketplace, Go-To-Market, and Bonus. The main content area is titled 'Settings' and contains two sections. The top section is for configuring publishers, with a text prompt: 'If your company has multiple locations, and you want to publish specific offers to these locations, please list them here'. It includes a 'Default' dropdown set to 'APAC', a 'Default Publisher' dropdown set to 'AUD', and a 'Credentials' button highlighted with a blue arrow. Below these are buttons for '+ Add another Publisher' and 'Save Configuration'. The right section lists various features with toggle switches: Private Offers, Orders, Leads, Co-Sell Status, Product Listings, and Finance. A 'Save' button is at the bottom right of this section. The bottom section, 'User Roles', shows two roles: 'Finance' (The Owl) and 'Manager' (The Wolf), each with a description and a count of users.

Click on Client ID.

This screenshot shows the same 'Settings' page as above, but with a modal dialog open in the foreground. The dialog is titled 'Credentials for this Publisher' and contains the following fields: 'Tenant Id' (pre-filled with '9e1c9f0d-56ff-40b7-a717-a098e46ab008'), 'Client Id' (pre-filled with 'af89b...d37fd986' and highlighted with a blue arrow), and 'Client Secret' (masked with dots). At the bottom of the dialog are three buttons: 'Cancel', 'Validate Credentials', and 'Save'. The background settings page is dimmed.

Click on Save

The screenshot shows the 'Settings' page in the Wetransact application. A modal titled 'Credentials for this Publisher' is open, prompting the user to enter details. The modal contains the following fields and buttons:

- Tenant Id:** A text input field containing the value '9e1c9f0d-56ff-40b7-a717-a098e46ab008'.
- Client Id:** A text input field containing the value 'af89bd3b-bd64-4b9b-acff-916fd37fd986'.
- Client Secret:** A text input field with masked characters (dots).
- Buttons:** A 'Validate Credentials' button (light purple) and a 'Save' button (dark purple) at the bottom right. A 'Cancel' button is also present at the bottom left.
- Feedback:** A green message states 'Credentials valid. Click the Save button to store them'.

An arrow points from the 'Save' button in the modal to the 'Save' button on the background settings page.

Click on Save Configuration

The screenshot shows the 'Settings' page in the Wetransact application. The 'Default Publisher' section is active, showing a list of publishers with columns for 'Default', 'APAC', 'AUD', and 'Credentials'. The 'Save Configuration' button is highlighted with a blue arrow pointing to it.

The 'User Roles' section is also visible, showing two roles:

- Finance (The Owl):** Handles financial transactions, reports, and revenue-related tasks, with minimal involvement in product or marketing activities. 0 person.
- Manager (The Wolf):** Has broad access across most functions, including product listings, pricing, and go-to-market activities, ensuring smooth operations. 1 person.

Click on Home

Select Listings to Sync

We found the following product listings from your Partner Center account.

You can review the name, ID, and current status of each listing before syncing.
Select the listings you'd like to import into your workspace.

☐	Status	Product Listing Name	Product Listing ID	Publisher Name
☐	Published *	GF saas offer	gftest-saas-preprod	Default
☒	Published *	Gender Fitness	genderfitness	Default

* Warning: Some of the selected products are marked as 'Published' in Partner Center. Even though they might have been marked as 'Published' in Partner Center, they still need to go through the publication process again to ensure all (technical integration) details are up to date.

Click on Publish

Product Listing > Gender Fitness

This product was recently imported from Partner Center. Even though it might have been marked as 'Published' in Partner Center, it still needs to go through the publication process again to ensure all (technical integration) details are up to date. That's the reason the product has the status 'New' in the WeTransact Platform. Please review and publish the listing.

Gender Fitness New Software as a Service [Edit details](#)

Optimize your list Storefront
When you publish a new listing, expect a few hours of review time by Microsoft's certification team. Your listing will either be published or returned for revisions if necessary.
Our Head of Marketing will walk you through how to make your listing shine on the Marketplace.

Check on

Product Listing > Gender Fitness

Almost there! Let's review a few things.

Before we publish your listing, let's get clear on what pricing plans you would like to send for publication. You'll be able to select from completed drafts or published plans with new edits.

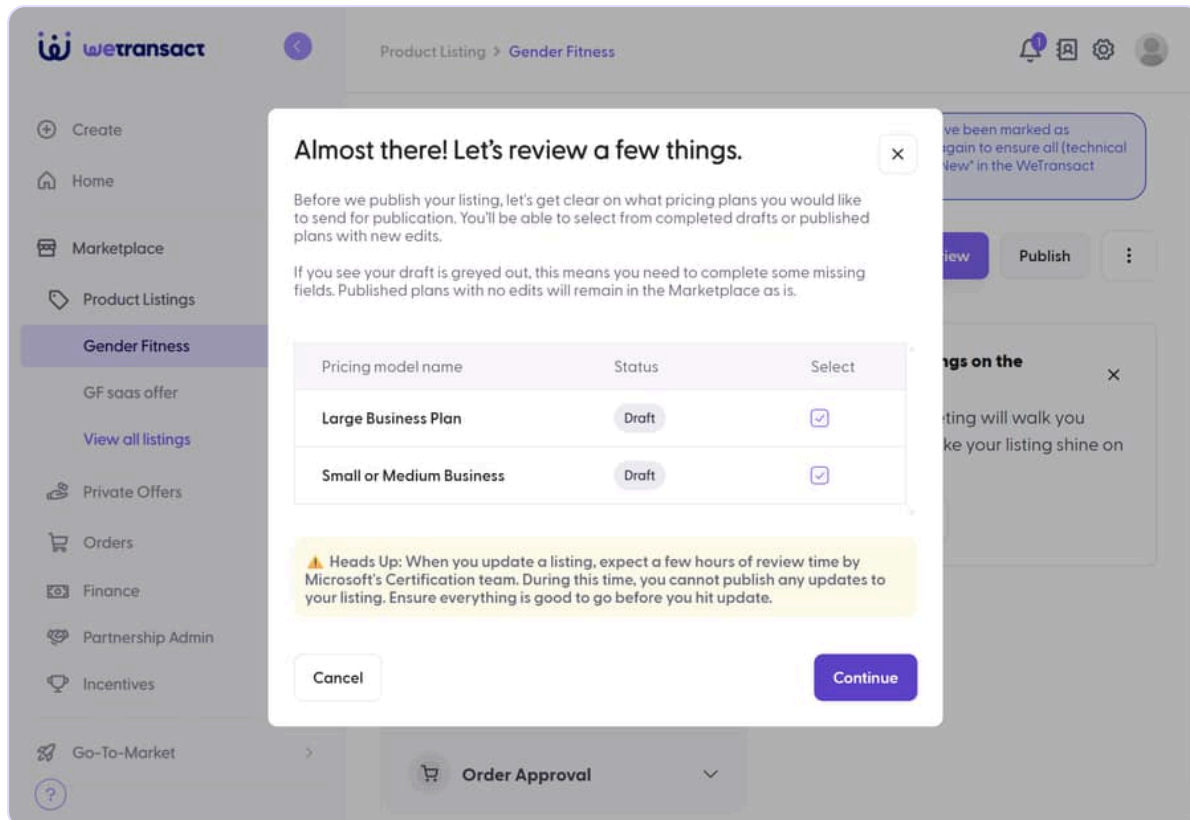

If you see your draft is greyed out, this means you need to complete some missing fields. Published plans with no edits will remain in the Marketplace as is.

Pricing model name	Status	Select
Large Business Plan	Draft	☒
Small or Medium Business	Draft	☒

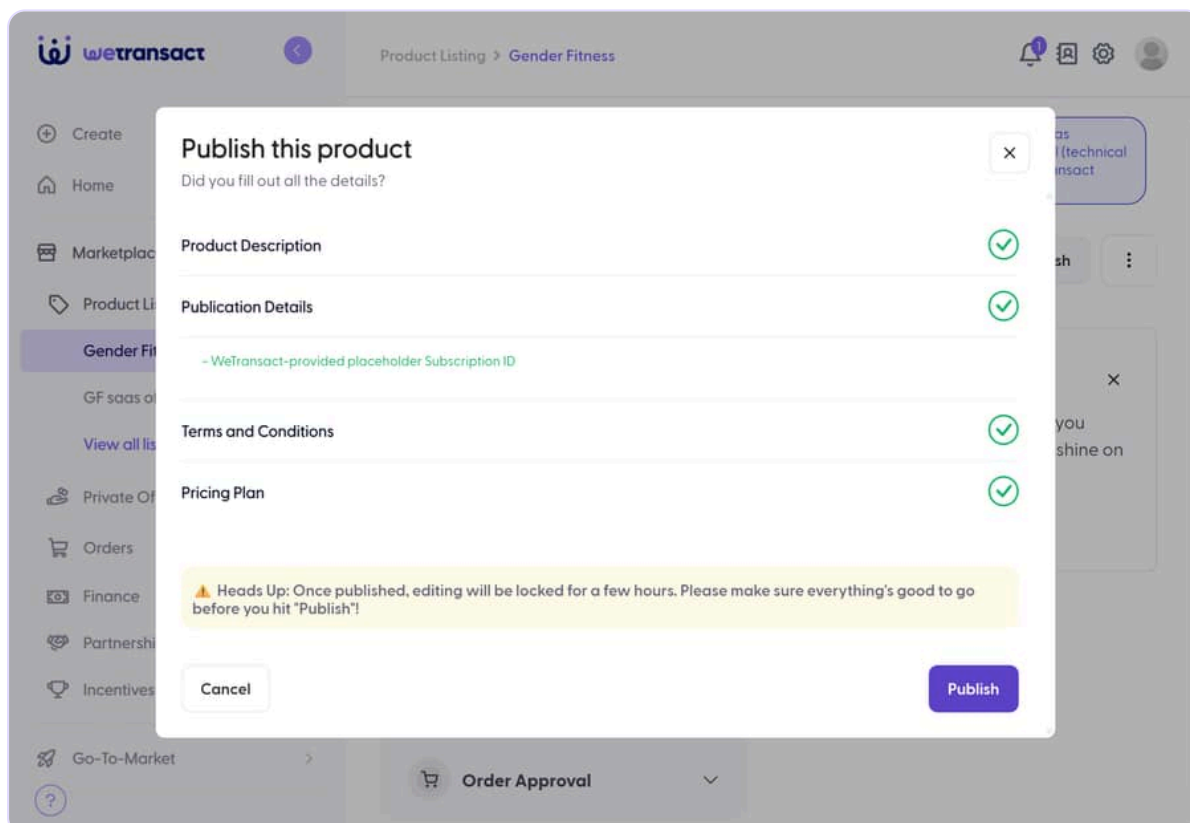

Heads Up: When you update a listing, expect a few hours of review time by Microsoft's Certification team. During this time, you cannot publish any updates to your listing. Ensure everything is good to go before you hit update.
